On Lights.—Alderman Place, Councilmen Smith and Andrews.

On City Farm.—Alderman Wesley, Councilmen Andrews and Rutter.

On City Park.—Alderman Cassily, Councilmen French and Carragher.

City Hall Committee.—Hon. A. G. Whittemore, President of the Common Council Twombly, and Alderman Cartland.

INAUGURAL ADDRESS

—BY—

HON. ARTHUR G. WHITEMORE.

(Delivered January 1, 1902.)

GENTLEMEN OF THE CITY COUNCILS:—

We have met on this New Year's day to organize for the work of the term for which we have been elected. The charter imposes upon me the duty of communicating such information, and recommending such measures, as the business interest of the city may, in my opinion, require. In the discharge of this duty, I shall endeavor to summarize and present such facts for your consideration as seem best adapted to promote the welfare and prosperity of the city, and to urge upon you an adherence to the measures and principles of action, which, in my judgment, will lead to the same harmonious and successful administration of the city government, that prevailed during the year that has passed.

I wish to thank the City Councils for the assistance and support given me in carrying out those measures that were recommended in my first annual message, and the assistance rendered in our efforts to improve the administration of municipal affairs. Harmony and mutual confidence has prevailed, and much good has been accomplished, and I hope and trust that the same pleasant relations will continue during the term of office now opening before us. Personal considerations were disregarded, and we were animated by but one purpose, to do that which was for the best interest of the city.

FINANCE.

The first and important subject that demands attention

in municipal affairs is that of finance. Taxes are always with us, and always a necessity under any form of government, but taxation may become a burden if levied for unnecessary objects, or if extravagantly expended for apparently essential purposes.

It has been our purpose to limit the appropriations to the absolute needs of the city, consistent with a progressive policy, taking into consideration its growth and prosperity. How well we have succeeded may be gleaned by comparing the present condition of the city's finances with that of one year ago.

Our indebtedness today of every form is as follows:

Description of Loan.	Interest Rate.	When Due.	Amount.
City bonds, not presented . . .	Ceased.	1881.	\$10,000.00
Municipal loan	4 per cent.	\$10 000 yearly.	40,000.00
City Hall loan	4 " "	1906-1912.	181,000.00
Funding and Bridge loan . . .	4 " "	\$5,000 yearly.	75,000.00
Cemetery note, balance . . .	4 " "	On demand.	3,138.75
Cemetery trust account . . .	3 1-2 "		11,861.25

Total municipal debt	\$321,000.00
Water Works debt.	307,500.00
Total debt, including water works debt, Jan. 1, 1902	\$628,500.00
Total debt, including water works debt, Jan. 1, 1901	645,500.00
Reduction of city debt during the year,	\$17,000.00

Counting the cash in the treasury and uncollected taxes as assets for the purpose of comparison, we find:

Cash on hand, not including water department	
balance	\$52,620.72
Uncollected taxes	27,646.25

Total cash and uncollected taxes, January 1st,	
1902	\$80,266.97
Total cash and uncollected taxes, January 1st,	
1901	71,754.08
<hr/>	
Total net increase of assets during the year .	\$ 8,512.89
Amount of debt cancelled	17,000.00
<hr/>	
Total increase of assets and reduction of debt,	\$25,512.89

By these figures you will see that by strictly adhering to a policy of economy for the brief period of one year, we are able to show to the citizens that our city's finances have been improved to the extent of \$25,512.89. This result is very gratifying, and its importance to the city cannot be over estimated, as the city of the future that is to expand and increase its business enterprises, is the city that is not burdened with debt, and an ever increasing tax-rate. I therefore earnestly recommend that you pursue the coming year, the same policy of economy as has been practiced during the past.

The municipal debt matures in amounts each year that can be taken care of in the annual appropriations, excepting a portion of the City Hall loan. One hundred and eleven thousand (\$111,000) dollars of this loan matures April 1st, 1912; to meet this debt at maturity, it will be necessary to provide a sinking fund. I would recommend that out of the cash balance now on hand, we set apart the sum of ten thousand (\$10,000) dollars, and we would then have nearly as large a sum to carry forward as we had at the beginning of last year to meet the current expenses in anticipation of next year's assessment, and the same amount added to the sinking fund each year would pay these bonds at maturity.

The cemetery trust funds have been withdrawn from the Strafford Savings Bank and applied to the payment of the cemetery note, under the Act of 1899. By this transfer, the depositors are getting three and one-half per cent., to be

used for the care of their cemetery lots, instead of three per cent., and the city is paying only three and one-half per cent. for the use of the money, instead of four per cent. as formerly, four per cent. being the lowest rate obtainable at the time the cemetery note was last renewed.

TAX VALUATION.

I am still of the opinion that our tax valuation is excessive when compared with that of other cities or towns in the state and county, and I would renew my recommendation of last year: if other cities and towns will not raise their valuation to Dover's standard, we must reduce ours to theirs, for under the present system we are paying more than our share of state and county taxes.

STREETS.

The task of the Superintendent of Streets the past year has been difficult, and necessitated a larger expense than usual in keeping the streets in repair, by reason of the frequent and severe showers during the spring and summer months; but notwithstanding the same, several streets have been rebuilt and macadamized, and I would renew my recommendation of last year, that each year we apply as large a percentage of the highway appropriation as possible to permanent road building, beginning with the main thoroughfares, building for all time. When once thoroughly and substantially built, these streets would last a generation.

Last year I called your attention to the importance of keeping the streets clean and tidy, and in compliance with this recommendation, the street department has kept one man engaged most of the time during the summer season, cleaning street crossings and gutters, and it has resulted in a marked improvement in the appearance of the business section of the city, and the same should be continued and extended.

In the rebuilding of our streets, it is economy to employ the best modern appliances; the steam road roller has

passed the experimental stage, and demonstrated its utility in road-building, and I would recommend that we supply the street department with a modern steam road roller the coming season.

SEWERS.

By reason of new territory being added, the sewers in the central part of the city in some instances are too small to take care of the flow of water, and it is especially noticeable in the vicinity of Central square. The sewer extending from Waldron street to Orchard street was relaid last year by substituting a larger sewer to take the place of a ten inch sewer laid years ago, and this has relieved the business blocks fronting on Central avenue between the two streets. To remedy the same situation around Central square I would suggest that during the coming season we enlarge the Washington street sewer from Central square to the river.

SCHOOLS.

The growth of our city is attested in the increased number of children in our public schools; this increase has necessitated increased accommodations. A new schoolroom has been furnished by fitting up Central hall, and I am informed by members of the school board that the same makes a convenient and attractive schoolroom. I wish to impress upon the school board the importance of guarding the school children from disease, and I would urgently recommend that they strenuously guard the health of the scholars by maintaining the most approved sanitary and ventilating methods possible for each schoolroom.

The public library has continued to expand, and its importance, as an adjunct to education, increases year by year. The financial requirements of the schools and public library should receive your careful attention.

POLICE.

The police department under the direction of its veteran City Marshal, James Fogerty, has maintained a high stand-

ard for efficiency, and the police force have worked together in complete harmony the past year.

By an examination of the City Treasurer's report, it will be seen that the net income of this department for the past year, amounts to \$5,104.94; this is the largest amount realized by the city in the history of the department. I trust it does not attest an increase of crime, but rather the vigilance and effort of the police in enforcing the laws.

WATER DEPARTMENT.

No department of the city requires more constant and vigilant executive ability than the water department, and I regret that there is not more unity and harmony existing among the members of the water board. I would suggest that the board get together, and for the future pursue a united and vigorous policy in the management of the same. From a personal connection with this department for twelve years, I know that any other policy than constant, persistent and united effort would, in the end, result injuriously to the city's interest.

As the steam pump at the pumping station has been in constant use for twelve years, the liability of a break is possible, and as we are entirely dependent on this pump for our supply of water, I would recommend that the Water Commissioners take immediate steps to purchase an auxiliary pump, or a new pump keeping the present one for auxiliary work.

FIRE DEPARTMENT.

Under the management of Chief Engineer Varney and his assistants, the fire department has maintained a high standard for efficiency, and as a result, the fire losses in the city of Dover for the past year have been comparatively small.

During the year much has been done for this department; the central station has been equipped with a new steam heating apparatus, and the rooms repaired and painted. The firemen have had their annual salary increased, but a provision was made for a reduction in the number of men;

this may necessitate more work for those remaining, but as the compensation is greater, more work is expected.

HEALTH DEPARTMENT.

This department maintains a good record in regard to the control of contagious diseases. By reason of the prevalence of small pox in adjoining cities the board of health has made plans to provide for any outbreak of the disease here; they have secured a pest house to be used in case of emergency.

I wish to urge upon this department the necessity and importance of ferreting out and removing all nuisances which may cause sickness or disease. They have ample authority under the laws of the state, and there should be no hesitation when the health of any section of the community is imperiled.

The Poor department has been well and economically administered during the past year.

STREET LIGHTING.

Our street lighting contract expires in November next, and you will have this subject to deal with. The utmost care, investigation and research will be required, that in any new arrangement made we may give the city the most favorable terms possible to obtain. I would recommend that you include the lighting of the city hall building in any contract you may make. The cost of lighting this building is enormous and excessive, and this may be our opportunity to obtain an arrangement that will relieve the city of these large lighting bills.

CITY HALL BUILDING.

It has been my effort to reduce the expense of maintaining this building to a figure more in harmony with a city of the size and wealth of Dover. The amount of coal consumed is excessive, which is occasioned by reason of a defective heating apparatus. We have improved the same somewhat by having the boilers stripped and cleaned; but this

is only partial relief. I would recommend that the building be re-piped and supplied with new boilers, and when these improvements are made, I believe the cost of heating the city building will be reduced nearly one-half.

The gas meters were, for some unexplained reason, placed in the boiler room of the building, and have remained there since its construction. I called the city hall committee's attention to the dangerous position of these meters, and an order was issued for their removal; after much delay the gas company's agents have removed same. There were some nine meters in this boiler room, and had any one of the connections been broken when the boilers were in use, it was possible for it to cause an explosion that would wreck the city hall.

The committee on lands and buildings have had to relay the curbing in front of this building, and the curbing on the Locust street side should receive like attention as soon as the spring opens.

ORDINANCES.

One of the important works accomplished by the councils is the revision of the city ordinances. When we entered upon our first term of office it was almost impossible to ascertain what were the ordinances on any given subject; by their revision and publication they are now accessible to all citizens.

CONCLUSION.

Gentlemen of the City Councils:—

The business interests of the city have been confided to our charge during the present year. It is a matter of deep concern to the prosperity of the city that they be managed judiciously, and with a careful consideration of the future consequences involved in our actions.

Correct conclusions can be reached only by a careful study of each question as it presents itself, and by weighing it in its bearings upon other questions affecting the interest of

the city ; and in forming your conclusions, see to it that her interests are jealously guarded.

Dover, the home of family and friends; around thee cluster all our hopes and aspirations, and there is no sweeter or brighter spot, nor has any city more filial and loving sons than are here assembled , and let us each, here and now, enter a solemn vow to guard her interests during the coming year.

ANNUAL REPORT

OF THE

Joint Standing Committee on Finance.

GENTLEMEN OF THE CITY COUNCILS:

The books of the City Treasurer have been examined and compared with those of the City Clerk by the Joint Standing Committee on Finance, and all accounts are found to be correctly kept, with proper vouchers on file for all payments. We have examined the bonds and cash on hand, and also the sources from which the income of the city has been derived, and we are satisfied that the report of the City Treasurer is correct.

We have examined all appropriations, vouchers and receipts in the City Clerk's office and compared the same with the Treasurer's and find bills approved, certified, and checks properly issued. We find the accounts of the office plainly and legibly set forth, and agreeing with the books of the City Treasurer.

We find the cash balances in the hands of the City Treasurer to be \$54,284.30.

We find the following trust funds in the custody of the city, invested as designated: Tredick fund, five \$1,000 city of Portsmouth bonds, 4 per cent., \$5,000.00; Currier fund, Savings bank, \$1,000.44; Jacques fund, Savings bank, \$1,758.70; Pray fund, Saving bank, \$661.19; Woodman fund, National bank, \$115.09; cemetery income fund, Savings bank, \$410.55.

The Treasurer's report is annexed to and made a part of this report.

Respectfully submitted.

A. G. WHITTEMORE,
CHARLES S. OTIS,
JOHN D. BABB,
FRED D. FRARY.

Committee.

Dover, N. H., December 31, 1901.

ANNUAL REPORT
OF THE
CITY TREASURER.

WILLIAM K. CHADWICK, TREASURER,

IN ACCOUNT WITH THE CITY OF DOVER.

REPORT OF TAX LIST COMMITTEE. 1898-1899.

TO THE MAYOR AND ALDERMEN OF THE CITY OF DOVER:

Your committee appointed to examine the lists of the Collector of Taxes for the years 1898 and 1899, beg leave to report that they find a settlement has been made with the Collector for 1898, and no records for that year remain to be examined. For the year 1899 they find:

Balance due December 31, 1900	\$14,640 63
Interest applied since Dec. 31, 1900	281 57

Total amount due on 1899 list	\$14,922 20
---	-------------

CREDIT.

By paid City Treasurer to December 30, 1901	\$10,654 53
Abatements during year 1901	1,165 42

Total	\$11,819 95
Leaving to be accounted for	3,102 25
	\$14,922 20

We have been unable to get access to the Collector's books and the above is as definite a report as we can make under the circumstances.

Respectfully submitted,

CHARLES S. OTIS,
ORLANDO R. WIGGIN,
W. W. CUSHMAN,
CHAS. S. CARTLAND,
JOHN W. RINES,
JAMES M. HAYES.

Dover, N. H., December 30, 1901.

REPORT

OF

TAX LIST COMMITTEE

1900-1901.

TO THE MAYOR AND ALDERMEN OF THE CITY OF DOVER:

Your committee appointed to examine the condition of the 1900 and 1901 tax lists of the city of Dover, submit the following report:

1900.

CHARLES H. FOSS, Collector,	Dr.
To tax list as committed	\$167,903 29
Interest	699 78
	<hr/> \$168,603 07

ANNUAL REPORT

OF THE

Joint Standing Committee on Claims.

GENTLEMEN OF THE CITY COUNCILS:

The number of claims filed by the city clerk during the year 1901, and presented to your committee for examination and approval, has been 1,209, representing demands in the aggregate of \$193,734.77. These claims were classified as follows:

NO.	DEPARTMENT.	Appropriations and income.	EXPEND'S	UNEXPEN'D	OVERDR'N
10	Bridges	\$800.00	\$619.17	\$180.83	
2	Cemeteries	1,000.00	1,000.00		
1	City Debt	15,000.00	15,000.00		
2	City Farm	50.00	49.22	78	
40	City Hall Committee	2,474.72	2,875.86		\$401.14
1	City Park	25.00	23.25	1.75	
1	Cleaning Schoolhouses	175.00	175.00		
3	County Tax	29,108.02	29,108.02		
1	C. W. Sawyer Post	225.00	225.00		
15	Damage by Dogs	964.15	964.15		
22	Election Expenses	1,200.00	613.14	586.86	
174	Fire Department	9,446.28	9,335.41	110.87	
1	Fourth of July	35.00	35.00		
1	Free Text Books	1,600.00	1,600.00		
121	Health	2,300.00	2,375.47		75.47
308	Highways	17,307.00	19,382.99		2,075.90
22	Insurance	3,550.00	3,440.14	109.86	
8	Interest	13,275.00	12,823.18	451.82	
64	Lands and Buildings	1,951.00	1,932.45	18.55	
93	Miscellaneous	1,166.00	1,157.73	8.27	
3	Opera Commission	1,300.00	1,300.00		
96	Police	10,604.94	9,166.98	1,437.96	
6	Printing	750.00	747.72	2.28	
6	Public Library	3,750.00	3,750.00		
14	Salaries	5,100.00	5,300.00		200.00
10	Schools	27,095.00	27,095.00		
37	Sewers	2,227.75	2,174.77	52.98	
22	Sidewalks	2,000.00	1,937.45	62.55	
1	State Tax	17,930.75	17,930.75		
48	Schoolhouse Repairs	1,500.00	1,499.76	24	
31	Special	6,730.95	1,929.67	4,801.28	
1	Strafford Guards	200.00	200.00		
13	Street Lighting	9,000.00	8,950.55	49.45	
1	Street Sprinkling	450.00	435.00	15.00	
1	Schools, Evening	300.00	300.00		
15	Support Paupers	3,400.00	3,264.82	135.18	
6	Support Prisoners	1,450.00	1,017.12	432.88	
2	Water	4,000.00	4,000.00		
1209		\$199,141.65	\$193,734.77	\$8,459.89	\$2,752.51
		193,734.77		2,752.51	
		\$5,706.88		\$5,706.88	

Checks have been issued, numbering from 789 to 1997, both numbers inclusive.

FINANCIAL SUMMARY.

The various interests included in the foregoing table briefly summarized, are as follows :

Direct appropriations by City Councils . . .	\$162,168 77
Rebate from State, anticipated and applied .	21,000 00
Receipts, exclusive of local taxes	16,272 88
<hr/>	
Total	\$199,441 65
Expenditures	193,734 77
<hr/>	
Unexpended balance	\$5,706 88
Amount of taxes levied for all purposes, including added list	\$168,629 92
Direct appropriations by City Councils . . .	162,168 77
<hr/>	
Surplus for collection and abatements . . .	\$6,461 15

Respectfully submitted,

JOHN H. NEALLEY,
CHARLES W. TOWNSEND,
A. A. CHENEY,

Committee.

Dover, N. H., December 31, 1901.

FINAL REPORT

OF THE

CITY OPERA COMMISSION.

GENTLEMEN OF THE CITY COUNCILS :

We have the honor to submit herewith the final report of the City Opera Commission, embracing the period from January 1, 1901, to July 1, 1901, upon which latter date, under the provisions of the revised ordinances of 1901, the commission ceased to exist, its functions and duties having been transferred to, and vested in, a committee from the city councils entitled the "City Hall Committee."

RECEIPTS.

Cash balance from 1900	\$ 32 92
Dartmouth Dramatic Club, rental	50 00
Dartmouth Alumni, banquet hall	9 00
H. E. Wheeler, banquet hall, etc	14 00

Dover, N. H., July 1, 1901.

ANNUAL REPORT

OF THE

OVERSEER OF THE POOR.

GENTLEMEN OF THE CITY COUNCILS:

I submit herewith the report of the Overseer of the Poor for the year ending December 23, 1901:

FINANCIAL STATEMENT.

RESOURCES.

Appropriation by the city councils	\$3,400 00
--	------------

EXPENDITURES.

Support of soldiers and their families	\$1,170 40
Support of paupers and their families	1,064 05
County of Strafford, support of paupers, two years	651 40
N. H. State Hospital, care of insane	98 72
St. Joseph's Boys' Home, care of orphans	96 25
T. W. Woodman, rent	84 00
Salary of overseer	100 00

Total expenditures	\$3,264 82
Unexpended balance	135 18

Total	\$3,400 00
-----------------	------------

The Overseer of the Poor refers with especial gratification to the foregoing financial exhibit. Not only has every financial interest been carefully safeguarded, but the usual policy of the department to extend its protecting care over the unfortunate poor, has been as carefully observed. The above balance of \$135.18, however, does not fairly represent

the economic situation, as we have adjusted the pauper account at the Strafford county farm for the present term, a claim invariably carried over into the succeeding year. Add the amount of the county's bill for 1900 (paid in 1901) to the balance above reported, and we find the actual difference between the sum appropriated and the total of the year's expenditures to be \$503.18.

As an additional evidence that the affairs of the department have been economically administered, we call attention to the fact that the actual expenditures for the year are \$290.00 less than the average annual disbursement for the ten years immediately preceding.

Respectfully submitted,

FRANK RIXES,

Overseer of the Poor.

Dover, N. H., December 23, 1901.

ANNUAL REPORT

OF THE

Joint Standing Committee on Streets.

GENTLEMEN OF THE CITY COUNCILS :

As to what has been accomplished during the year, you are largely familiar through petitions presented and passed upon, or by a casual, and perhaps oftentimes critical, examination of the work while in progress.

For your consideration we present the following

FINANCIAL SUMMARY:

HIGHWAYS.

Appropriation	\$17,000 00
Received for crushed stone, etc.	307 09
By treasury transfer	2,075 90
<hr/>	
Total resources	\$19,382 99
Expenditures	19,382 99
<hr/>	

SEWERS.

Appropriation	\$1,800 00
Department income	427 75
<hr/>	
Total resources	\$2,227 75
Expenditures	2,174 77
<hr/>	
Balance unexpended	\$52 98

SIDEWALKS.

Appropriation	\$2,000 00
Expenditures	1,937 45
<hr/>	
Balance unexpended	\$62 55

STATISTICS.

The following table, giving a summary of the pay rolls in the several highway districts by years, since January 1, 1898, not only presents an interesting study, but gives a comprehensive idea of the proportion of the department resources demanded for labor alone.

DIST	1898	1899	1900	1901
No. 1	\$12,724 02	\$12,468 81	\$11,528 36	\$10,874 75
2		135 90	110 10	447 83
3		76 80	68 10	152 95
4	40 50	79 50	36 45	96 00
5	62 60	120 29	87 45	742 60
6	17 85	92 25	33 45	79 05
7	100 00	131 00	103 00	234 75
8	59 55	298 05	181 95	157 35
9		53 90	14 55	194 90
10	172 20	82 50	265 55	377 45
11	12 75	30 75	6 75	125 85
12	26 70	46 80	200 70	214 95
13	61 25	77 55	489 65	417 70
14	236 80	167 76	208 60	235 85
15	125 70	131 82	1 35	221 85
16	108 75	255 75	151 15	72 25
17	140 10	217 73	347 14	144 40
18	87 90	177 15	51 55	231 65
19	100 40	249 67	135 15	296 40
20			77 85	
	\$14,077 07	\$14,893 98	\$14,098 85	\$15,318 53

While the amount paid for labor in District No. 1 during the past year has been \$1,365.64 less than the general average for the three years immediately preceding, the expenditures in the outside districts for 1901 were \$3,090.73 in excess of the payments for the same districts in 1898, \$2,018.61 larger than in 1899, and \$1,873.29 larger than the aggregate for 1900.

We do not claim that this excess was due to a more liberal policy, but simply desire to demonstrate, by comparison

with previous years, that the suburban roads, being constructed of less substantial material, suffered more severely from the effects of the heavy summer showers than those within the confines of District No. 1.

For the purposes of comparison we present below a statement of the disbursements of the Highway department from 1890 to 1901, both years inclusive:

YEAR.	AMOUNT.	YEAR.	AMOUNT.
1890	\$19,316 55	1896	\$14,833 56
1891	21,102 01	1897	19,565 62
1892	19,035 61	1898	18,073 78
1893	19,145 06	1899	18,682 76
1894	21,045 86	1900	19,597 08
1895	19,168 07	1901	19,382 99

Average per year \$19,079 08

While we have exceeded the appropriation allotted us at the beginning of the year, it will be seen by reference to the foregoing table that our expenditures are but a little in excess of the annual department average for the past twelve years.

The following table shows the entire cost of maintenance, with the exception of labor, for the years 1898, 1899, 1900, and 1901:

YEAR.	AMOUNT.	YEAR.	AMOUNT.
1898	\$3,996 71	1900	\$5,498 23
1899	3,788 78	1901	4,064.46

Theoretically, it is not such a difficult matter to build and maintain good roads. Everybody knows just how it should be done. Yet, if one were to seek information from a score of different people, he would, in all probability, find himself in possession of twenty different methods. With such a wide diversity of opinion upon the subject, one must naturally expect liberal, if not unjust criticism.

Results, with particular reference to means employed, is the best gauge by which to determine the standard of fitness.

The question of good roads is so broad in its scope, so important in its consequences, that it not only interests the common carrier, but resolves itself into a problem of grave concern to people in all classes of life.

It has been estimated by competent statisticians that six hundred millions of dollars are expended annually by the farmers of the United States in moving twenty-five hundred millions of dollars worth of produce over bad roads to railway stations and to market. This is a tax of twenty-four cents on every dollar's worth of produce that goes to market. It is further estimated that at least one-half of this outlay might be saved by good roads.

Basing our conclusions upon observation and such experience as we may have been permitted to enjoy, we venture the assertion that, while the original outlay might seem large, Dover could inaugurate no movement that would ultimately prove so economical, beneficial and enjoyable, as the perfecting of its public highways.

It is true that Dover has some very good sections of roads, but under present conditions the system of reconstruction cannot attain that vigor which the spirit of the times demands.

By reference to the report of the superintendent of streets, it will be observed that some progress has been made in the work of macadamizing our public thoroughfares. During the coming years we trust that this movement, stimulated by a fixed and generous appropriation, will assume far greater prominence, and thus hasten the time when the patch-work policy of the present will be a thing of the past.

For more minute details of the year's work, you are respectfully referred to the accompanying report of the superintendent of streets.

Respectfully submitted,

W. W. CUSHMAN,

GEO. W. MESERVE, Committee.

Dover, N. H., December 30, 1901.

ANNUAL REPORT

OF THE

SUPERINTENDENT OF STREETS.

GENTLEMEN OF THE CITY COUNCILS:

To the joint standing committee on streets, under whose direction the work of the department has been largely performed, I leave the task of discussing the financial transactions, as well as the consideration of those larger problems of highway management, which familiar acquaintance, growing out of careful study and practical oversight, have so well equipped them, and confine myself entirely to the presentation of results.

An early inspection of the machinery and equipment for crushing stone, demonstrated the need of extensive repairs. The boiler, which heretofore furnished steam for the crushing plant, was inspected early in March, by the Hartford Steam Boiler Inspection and Insurance Co., and while its general condition was found to be comparatively good, it was advised, owing to the construction of the boiler,—the longitudinal seams being single riveted,—that the safety valve be set to blow freely at seventy pounds, and at no time to exceed that figure. In the interest of safety, as well as for the purpose of increasing the capacity of the plant, a new boiler of fifteen horse power, was procured, which has done excellent work throughout the season. A cheap but substantial building has been erected over the boiler to protect it from the elements.

The steam drill was started on the 18th day of May, and run with only necessary interruptions until the close of work on the ledge, December 1st. Eight men constituted the

regular working crew on the ledge, but their labors were often interrupted by the heavy rainfalls, and the necessity of utilizing their services elsewhere.

About 2,000 loads of excellent road-making material has been taken from the top of the ledge, and used in the work of the department. By removing this accumulation two objects were attained: the ledge was uncovered, and a large amount of material, at no cost except for transportation, was made available. We are at a loss to understand why this easily accessible and really high-grade road making material had not been used in previous years.

While the heavy rainfalls during the summer—eleven showers having been recorded during a period of only forty days,—not only cost the city about one-fourth of its entire appropriation for highway purposes, but compelled the department to subordinate all other interests to the more pressing need of repairing wash-outs and maintaining the public ways in a safe and passable condition.

The extension of East Concord street has been built during the year, and the grade of Waldron street established adjacent to the property owned by the Messrs. Williams. A number of large stones protruding through the surface of the public thoroughfares have been blasted out and removed, and numerous other details, not included in the following tables, such as cutting down trees, erecting street signs, cleaning out gutters, breaking out sidewalks and sanding sidewalks, etc., have contributed to make the year a busy one.

The introduction of the street sweeper has been productive of such good results that it is doubtful if its discontinuance would be tolerated. Not only have our streets presented a much cleaner and more attractive appearance, but from a sanitary standpoint alone, the sweeper has more than compensated for the outlay.

In the following tables we present a classification of a part, at least, of the more important features of the year's work:

NEW SEWERS.

New sewers have been laid as follows :

200 feet on Central avenue	20 in. pipe.
150 feet on Nelson street	8 in. pipe.
96 feet on Nelson street	10 in. pipe.
100 feet on Sixth street	10 in. pipe.
217 feet on Forest street	10 in. pipe.
26 feet on Grove street	10 in. pipe.
136 feet on Horne street	10 in. pipe.
30 feet on First street,	10 in. pipe.
30 feet on Fourth street	10 in. pipe.
315 feet between Hill and Ham streets . .	24 in. pipe.

Sewers have been repaired on Forest, Orchard, Portland, Sixth, Cushing, New York, Main and Lincoln streets and on Central avenue, the repairs on the Forest street sewer alone costing over \$150.00.

The sewer between Hill and Ham streets required a large amount of filling, 126 loads of sand being used for that purpose.

SEWER TRAPS AND INLETS.

New sewer traps and inlets have been introduced upon the following streets:

Lincoln street	1	Perl street	1
Forest street	1	Sixth street	1
Maple street	4	Grove street	2

Nineteen sewer inlets, originally protected by iron bars, were found in a defective and dangerous condition, and the necessary repairs made.

CULVERTS.

Nineteen culverts, nearly all of stone, were constructed or relaid during the summer. It is safe to assert that this branch of the service was never in better condition than it is today. These culverts were distributed as follows: Two in District No. 5, one on Oak street, one at Bellamy mills,

one on Cocheco street, one on Baker street, two on Durham road, two in District No. 2, two in District No. 20, one in District No. 7, one on Columbus avenue, three on Dover Point road, one on County farm road, and one on the Middle road.

GUTTERS PAVED.

The following gutters have been paved:

Hough street	60 ft.	Washington street .	60 ft.
Chestnut street . . .	20 ft.	St. Thomas street. .	200 ft.
Main street	100 ft.	Sixth street	25 ft.
Baker street	30 ft.		

STONE CROSSINGS.

Three hundred and twenty feet of new stone crossings have been laid during the year, as follows:

Broadway	60 ft.	Chestnut street . .	80 ft.
Sixth street	60 ft.	Grove street	80 ft.
High school	40 ft.		

Old crossings have been partially relaid upon First, Milk, Grove and Chestnut streets.

DRIVEWAYS.

New driveways, of either plank or pipe have been put in as follows: One each on Oak, Watson, Dover, Arch, Hill, Main, Prospect, River and Belknap streets, Durham and Dover Point roads; two each on Sixth and Rutland streets; and three each on Maple, Mt. Vernon, Cocheco and Hough streets, and Tolend road.

CRUSHED STONE.

The policy of extending the macadamized surface of our main thoroughfares has been continued through the year, the following quantities of crushed stone having been used:

Sixth street . .	1,000 loads	Prospect street .	343 loads
Washington st. .	110 loads	Mt. Vernon st. .	180 loads

Central ave. . .	106 loads	Maple st. . . .	376 loads
Chestnut st. . .	94 loads	Second st. . . .	253 loads
Essex st. . . .	43 loads		

Besides the 2,505 loads above mentioned, 164 loads have been used in the work of repairing the streets, and quite a quantity has been sold, for which due credit will be found in the report of the city treasurer. We have also 25 loads of stone crushed ready for immediate use, 50 loads broken ready for the crusher, and about 200 loads of loose stone collected and prepared ready for breaking.

In the work of macadamizing 399 loads of covering material have been used as follows: 167 loads on Sixth street, 47 on Prospect street, 20 on Washington street, 37 on Mt. Vernon street, 12 on Central avenue, 52 on Maple street, 46 on Second street, and 18 on Essex street.

GRAVEL.

The following quantity of gravel has been used for grading, repairing, etc.:

Locality.	No. Loads.	Locality.	No. Loads.
Central avenue. . . .	163	Florence street . . .	369
Washington street . .	267	Broadway	85
Portland street	81	Oak street	100
Hancock street	59	Back road	9
Guppy's hill	83	Hanson's hill	29
Gas house hill	70	Sixth street	319
Davis' hill	57	Fisher street	20
Winkley's hill	75	Fourth street	30
Perl street	64	George street	90
Chapel street	29	Nelson street	50
Dover street	12	Hanson street	47
Green street	26	Whiteher's Falls . . .	125
Willand's Pond	1,000	Cross r'd from Sixth st.	100
Glenwood avenue . . .	10	Maple street	88
Grove street	18	South Pine street . .	21
Washington street . .	131		

Gutter scrapings have not been included in the above table.

SIDEWALKS

Seventy-five feet of new brick sidewalk have been laid on Central avenue in front of J. T. W. Ham's store, 200 feet on Tuttle square, and 400 feet around the city building. We have also built 300 feet of cinder sidewalk on River street, 250 feet on Ash street, 200 feet on George street, and laid 200 feet of plank sidewalk on Portland street.

Repairs more or less extensive have been made on Central avenue, George, Ham, Second, Young, Third and Fourth streets.

All dangerous embankments, so far as our knowledge extends, have been protected by substantial railings, 460 feet of new railing having been placed in position, and 300 feet of old railing repaired during the year.

CINDERS.

In many localities cinders furnish a comparatively inexpensive and quite serviceable material for sidewalk construction, as well as for general repairs. The following quantities having been used during the year:

Locality.	No. Loads.	Locality.	No. Loads.
Green street	18	Fourth street	6
Rogers street	20	Arch street	35
Court street	22	Waldron street	24
Rutland street	34	Central avenue	21
Sonnett street	5	Hansonville	20
Cocheco street	4	Nelson street	39
Chapel street	10	Main street	26
River street	20	School street	4
East Brick street	9	Chestnut street	40
Twombly street	5	Hanson street	13
Franklin Court	19	Gas house hill	28
St. Thomas street	18	Horne street	22
Abbott street	8	Pidgin street	12
Young street	16	Perl street	16
Mt. Vernon street	17	Payne street	75
Folsom street	6	Ham street	11

Locality.	No. Loads.	Locality.	No. Loads.
Milk street	8	Sixth street	44
Washington street . . .	143	Hough street	62
New York street	24	Maple street	112
Horne street	78	Broadway	89
Silver street	39	Portland street	47
Atkinson street	10	Baker street	20
East Concord street . .	82	Forest street	24
Essex street	36	Lexington street . . .	27
Belknap street	95	Lincoln street	26
Oak street	4	Highland street	12
Gulf road	16	Grove street	67
Orchard street		2	

In conclusion permit me to say, that while the clouds have oft obscured my pathway, both metaphorically and in fact, the little gleams of sunshine which have occasionally smiled upon me, seem all the brighter for the contrast, and their reflected rays will long continue to warm my heart towards those who have so kindly and generously aided and encouraged me in my work.

In retiring from the office to which you elected me one year ago, I do so with the consciousness of having labored diligently and honestly to merit the confidence in me reposed.

For the grand old city which it has been my pleasure to serve, I shall ever entertain the warmest regard, and trust that she may enter into full fruition of all the benefices of social peace and material prosperity.

Respectfully submitted,

GEO. W. NUTE,

Superintendent of Streets.

Dover, N. H., December 31, 1901.

ANNUAL REPORT
OF THE
**Joint Standing Committee on Lands and
Buildings.**

GENTLEMEN OF THE CITY COUNCILS:

For general repairs and maintenance of our public buildings, an appropriation aggregating about three-fourths of one per cent. of the estimated value of such buildings is placed at the disposal of your committee. We submit that it is an economic proposition to fulfill public requirements upon such a basis of expenditure. We believe it to be true that the ordinary property holder not only sets aside, but actually requires, a much larger per cent. than that above mentioned, to meet the expense incident to wear and tear. That corporate management presents superior claims along the line of economy, over private ownership, may assume somewhat the nature of a revelation to those who are prone to regard the administration of every public trust with a certain degree of mistrust, yet the record of our official acts is open to their inspection, and upon that record we base our conclusions.

In addition to making such repairs as seemed to your committee to be essential, an entirely new system of steam heating has been introduced into the Central Fire Station, and numerous additions made to the furniture and equipment at the city building and elsewhere.

The building long used for a hook and ladder house, also for ward purposes, located on First street on land leased of the Coheco Manufacturing Company, was sold at public auction during the summer, as the lessor required the land for corporation uses. In the demolition of this building

another of the "olden landmarks" has been removed, and the voters of Ward Two are without a permanent polling place. Temporary quarters were secured for the municipal election in the building on Main street, owned by Mr. Burnham Hanson. How best to provide for the accommodation of the voters of that ward in the future, is one of the problems with which our successors will have to deal.

Among the special features of the year's work was the complete overhauling of the boilers in the city building. While some of the defects in the system were remedied, it would seem to be in the interest of economy to supplant the present "mongrel" system with a heating plant, constructed, and introduced along intelligent lines.

The re-setting of the heavy curbing bounding the city hall lot, and the attendant grading of the lawn, materially improved the surroundings of our municipal building, and proved a source of satisfaction to our citizens generally.

So far as our knowledge extends, every claim against the department has been paid, including bills aggregating about \$125.00, left unsettled by our predecessors.

For details as to the expenditures of the department, you are respectfully referred to bills on file in the office of the city clerk.

Respectfully submitted,

THOMAS H. DEARBORN,
FRED D. FRARY,
JOHN S. TRUE,

Committee.

Dover, N. H., December 30, 1901.

ANNUAL REPORT

OF THE

Joint Standing Committee on Repairs of School-houses.

GENTLEMEN OF THE CITY COUNCILS :

Your joint standing committee on repairs of schoolhouses has the honor to submit the following summary of the year's work :

An amendment to Chapter 93 of the Public Statutes of the State of New Hampshire, approved March 7, 1901, provides that "no minor shall be employed in any manufacturing establishment, or in any mechanical, mercantile, or other employment, who cannot read at sight and write legibly simple sentences in the English language, while a free public evening school is maintained in the district in which he resides, unless he is a regular attendant at such evening school or at a day school. * * * "

The operation of this law compelled a large number of foreign-born residents who would ordinarily have been regarded as beyond school age, to present themselves for "immersion at the fount of knowledge." As the number was largely in excess of accommodations heretofore ample, a new room was secured in Kennedy's block on Central avenue, and properly equipped for service. It was simply a question as to whether worthy and ambitious seekers after the rudiments of knowledge, who did not come within the provisions of the law, should be denied the only school privileges heretofore permitted them, or whether provision should be made for the accommodation of all. We submit that in the adjustment of the problem, no alternative course could be considered.

Not only has there been an overflow in attendance at the sessions of the evening school, but the increase in the number of day pupils rendered it imperative that additional school room be provided. Co-operating with the school committee, convenient accommodations were secured in the Brown-Holland building on Central avenue, and the quarters fitted with all the necessary accessories for school purposes. This compulsory and unlooked for increase in school attendance called for an expenditure of about \$550.00.

The ordinary work of the department has received the careful supervision of your committee, and we respectfully report that in addition to fulfilling the requirements of the school committee along the line of repairs and general maintenance, we have expended about \$200.00 in new furniture and fixtures, adding largely to the convenience and comfort of both teachers and pupils.

For details as to the expenditures of the department, you are respectfully referred to the published report of the receipts and disbursements for the year.

Respectfully submitted,

GEORGE F. HERSEY,

CHARLES W. TOWNSEND,

FRANK J. HANRATTY,

Committee.

Dover, N. H., December 30, 1901.

ANNUAL REPORT
OF THE
Joint Standing Committee on City Farm.

GENTLEMEN OF THE CITY COUNCILS :

Public lands, especially where the tracts are of considerable extent and of suburban location, are not only liable to encroachment, but are subject to every form of trespass.

After a careful investigation into the needs and necessities of the department assigned to our official care, your committee concluded that it was of the first importance to rebuild and repair the fences which, in many places, not only offered no bar to the free passage of man or beast, but had actually disappeared.

We were compelled to exercise care and economy in order to keep within the limits of our appropriation, and yet accomplish the work outlined, but by using such material as was available, we succeeded even beyond our expectations. The premises are now well protected, and present a far more creditable appearance than heretofore.

A balance of seventy-eight cents from our appropriation of \$50.00 remains to the credit of the department.

Respectfully submitted,

JOHN H. WESLEY,
JOHN S. TRUE,
GEORGE W. MESERVE,
Committee.

Dover, N. H., December 30, 1901.

ANNUAL REPORT

OF THE

Joint Standing Committee on Public Park.

GENTLEMEN OF THE CITY COUNCILS: *

As we pen our brief report, the picturesque but illogical title attached to the domain entrusted to our care, suggests those well remembered lines of Shakespeare:

“What’s in a name? that which we call a rose,
By any other name would smell as sweet.”

Public park! What vain pretension! Would it be considered impertinent to suggest a change in name? But what? The “Paradox:” that which in appearance or terms is absurd, but yet may be true in fact.

Yet there is a grain of comfort to be gleaned from all this seeming pomp and mild parade. We stand alone in the annual cost of maintenance. No other city in New England supports a public park of equal acreage upon so small an annual outlay. In fact, we have the honor to report a balance of \$1.75 remaining from our appropriation of \$25.00.

The appropriation placed at our command has been used, so far as your committee considered it necessary, in repairing the road-beds and walk-ways, rebuilding fences, and clearing the grounds of underbrush and other obstructions.

It is in evidence that a sufficient quantity of hay has been cut upon the premises during the past season to more than reimburse the city for its outlay, but as the labor was performed and the reward absorbed by the Highway department, we have no tangible offset to present.

Respectfully submitted,

PATRICK CASSILY,

JOHN D. BABB,

HENRY J. CARRAGHER, Committee.

Dover, N. H., December 30, 1901.

ANNUAL REPORT

OF THE

Joint Standing Committee on Printing.

GENTLEMEN OF THE CITY COUNCILS :

The work performed by your joint standing committee on printing, as well as the expense incident thereto, can be briefly summarized as follows :

Appropriation by city councils		\$750 00
Printing annual reports	\$386 20	
Binding annual reports	80 13	
Printing revised ordinances	141 00	
Binding revised ordinances	95 39	
Binding rules and regulations	3 00	
Miscellaneous printing	42 00	
	<hr/>	
Total	\$747 72	
Unexpended balance	2 28	\$750 00
	<hr/>	

All work involving any considerable expenditure of public money, has been under contract, the terms of which in every case have been satisfactorily fulfilled.

Respectfully submitted,

CHAS. S. CARTLAND,
JOHN L. FOSS,
FRANK J. McCABE,
Committee.

Dover, N. H., December 30, 1901.

ANNUAL REPORT

OF THE

Joint Standing Committee on Lights.

GENTLEMEN OF THE CITY COUNCILS :

In view of the fact that the contract under which the United Gas and Electric company renders service to the city, terminates in 1902, your committee, pursuing the evident policy of the councils, has made no attempt to reorganize or extend the street lighting system.

In the interest of economy, electricity has been introduced at the Central square drinking fountain in place of gas. By this change we not only make a small annual saving, but secure far more satisfactory service.

Such instructions as have, from time to time, been committed to us by vote of the city councils, have been carried into effect.

The total expense of the department for the year has been \$8,950 55, leaving a balance to the credit of the department of \$49.45.

Respectfully submitted,

A. CONVERSE PLACE,

GEORGE M. BAKER,

LEWIS E. TUTTLE,

Committee.

Dover, N. H., December 30, 1901.

ANNUAL REPORT
OF THE
Joint Standing Committee on Fire Department.

GENTLEMEN OF THE CITY COUNCILS :

For lists of officers and companies, schedule of property, location of reservoirs and hydrants, fire alarm boxes, etc. together with a chronological record of fires during the year, you are respectfully referred to the report of the chief engineer.

The year 1901 has been marked as one in which the department, as a whole, has experienced material benefit.

Not only has the equipment been reinforced by the addition of 1,000 feet of new hose, but the fire alarm system has been made more efficient, and two new boxes added to the circuit, besides introducing a number of minor devices for the greater convenience and safety of the firemen, as well as for general utility in case of action.

The introduction of steam as a heating agency at the Central fire station has been productive of excellent results, and won for the committee on lands and buildings sincere words of commendation. With the single exception of the South End hose house, our fire stations are now all provided with modern heating plants of approved patterns.

The revision of the city ordinances, while in no way abridging the statutory rights of the board of fire wardens, has more clearly defined the duties and responsibilities of the committee on fire department, and removed the element of doubt as to jurisdiction heretofore appertaining.

The favorable consideration, by the city councils, of the petition presented by the members of the fire companies for an increase in compensation, has resulted in a more equitable recognition of service rendered, and placed our city in

line with other New England municipalities of relative size and commercial importance.

With no attempt at idealization, we unhesitatingly affirm our confidence in the ability and efficiency of the firemen of Dover. That our city has escaped the ravages of the fire fiend is largely due to the activity and discretion of our commissioned fire fighters. Modern appliances, unless intelligently used, are of little value, but when guided by a master hand, they contribute largely to the achievement of great results.

While no pretense is made at elaboration or useless ornamentation, either in structural design or interior appointment, our fire stations are well located, reasonably convenient, and ample for all practical purposes.

Continuing the liberal policy of the past term, it will require but the lapse of a few years for our department to reach a plane where it may well excite the envy of even larger and more wealthy municipalities than our own.

For a detailed statement of the expenditures for the year, we respectfully refer you to the published report of municipal disbursements.

Respectfully submitted,

A. CONVERSE PLACE,
GEORGE M. BAKER,
CHARLES H. CLARK,

Committee.

Dover, N. H., December 30, 1901.

ANNUAL REPORT
OF THE
Chief Engineer of the Fire Department.

GENTLEMEN OF THE CITY COUNCILS:

I have the honor to submit for your consideration the annual report of this department for the fiscal year ending December 31, 1901, showing lists of officers and companies, together with inventory of property, locality of reservoirs, hydrants and alarm boxes.

ROLL OF FIRE DEPARTMENT.

Chief Engineer,
GEORGE E. VARNEY.

First Assistant Engineer,
JAMES SMITH.

Second Assistant Engineer and Clerk,
GEORGE A. SWAIN.

Steward and Driver, Central Station,
JAMES A. THOMPSON.

Steward and Driver, Hose Co., No. 2,
WILLIAM E. RAND.

Steward and Driver, Hose Co., No. 3,
LOUIS H. STEUERWALD.

Steward and Driver, Hook and Ladder Co., No. 1,

WESLEY B. STERLING.

Driver, Steam Fire Engine,

OLIVER W. COLEMAN.

Engineers of Steamers :

Cocheco, No. 2,—John E. Dame.

Fountain, No. 3,—Samuel B. Abbott.

J. S. Abbott, No. 4,—John D. Babb.

Stokers of Steamers :

Fountain, No. 3,—Alonzo Whitehouse.

J. S. Abbott, No. 4,—Newell H. Young.

Lincoln Hook and Ladder Co., No. 1.

Captain,—George M. Baker.

Lieutenant,—Charles E. Mitchell.

Clerk,—William J. Murray.

Members,—Frank L. Brackett, Charles H. Clark, Fred A. Goodwin, William H. Ham, Frank Hanscom, William King, Thomas H. Leavitt, Frank E. Nason, Thomas J. Robinson, W. Irving Verner, Albert W. Willand, Charles Hale, George Smart, Frank Abrams, Thomas McMahon, Charles Whelpley.

Hose Co., No. 1.

Captain,—Edward I. Burnham.

Lieutenant,—George Hoitt.

Clerk,—Joseph Heeney.

Members,—John E. Leizer, Frank E. Tuttle, Leslie E. Jackson, Patrick J. Bradley, Charles M. Welch, George H.

McKenna, Samuel Tuttle, Albert Durgin, William Bradley, John Smith, James Grimes, Owen Preston, George Sunderland, Charles H. Foss, Joseph Berarde.

Hose Co., No. 2.

Captain,— John B. Hull.

Lieutenant,— George E. White.

Clerk,—Albert G. Hutchins.

Members,—John L. Abrams, Edward M. Foss, Frank N. Swain, Nathaniel Whitehouse, Charles W. Rollins, Guy Wiggin, William S. Burnside, Nelson U. Drew, William Lord, Charles Ross, Edward Trefethen.

Hose Co., No. 3.

Captain,— John McDonough.

Lieutenant,—William Jones.

Clerk,—George W. Richardson.

Members,— Eleazer L. Jones, Fred H. Richardson, Henry H. Sterling, John F. Brown, Otto Brown, Louis Scruton, Edward Knott.

APPARATUS.

LOCATED AT CENTRAL STATION ON ORCHARD STREET.

Steamer Coheco, No. 2, built by Amoskeag Manufacturing Co., in 1866.

Steamer Fountain, No. 3, built by Amoskeag Manufacturing Co., in 1875.

Two-horse hose wagon, No. 1, built by Abbott-Downing Co., in 1892.

Two-horse supply wagon, No. 4, built by H. A. Worthen, in 1882.

Two-horse hose sleigh.

LOCATED AT STATION NO. 2, BROADWAY.

Lincoln Hook and Ladder truck, No. 1, built by Abbott-Downing Co., in 1889.

One two-horse hook and ladder sleigh.

Steamer J. S. Abbott, No. 4, built by Amoskeag Manufacturing Co., in 1884.

One-horse hose wagon, No. 2, built by Abbott-Downing Co., in 1892.

One-horse hose sleigh.

LOCATED AT STATION NO. 3, SAWYER MILLS.

One-horse hose wagon, No. 3, built by Abbott-Downing Co., in 1888.

One-horse hose sleigh.

LOCATED AT CITY STABLE, CITY FARM.

One-horse hose reel, built by Amoskeag Manufacturing Co., in 1865.

Cataract, No. 4, built by Hunneman, in 1847.

HORSES.

One pair that hauls hook and ladder truck.

One pair that hauls hose wagon, No. 1.

One horse that hauls hose wagon, No. 2.

One horse that hauls hose wagon, No. 3.

HYDRANTS FOR STEAMERS.

One on Atkinson street.

Two on Hale street.

Five on Locust street.

Two on Payne street.

Two on Washington street.

One on Folsom street.

RESERVOIRS.—NORTH SIDE.

One on Chapel street.
 One on Portland street.
 Two on Broadway.
 One on Sixth street.
 One on Central avenue.
 One on Reservoir street.
 One on Maple street.
 One on Chestnut street.
 One on Grove street.
 Two at High schoolhouse.
 Three at Central avenue bridge.
 One on New York street.

RESERVOIRS.—SOUTH SIDE.

One corner Walnut and Washington streets.
 One corner Washington and Belknap streets.
 One on Washington street.
 One on Hale street.
 One on Silver street.
 One on Locust street.
 One at Mt. Pleasant.
 One on Central avenue.
 Two on Tuttle square.

LOCATION OF FIRE ALARM BOXES.

Box No.

7, Cocheco and School streets.
 8, Payne and Hanson streets.
 13, Near American House.
 15, Broadway and St. John streets.
 16, Portland and Essex streets.
 17, Broadway and New York streets.
 19, Broadway and Hill streets.
 21, First street.
 23, Boston & Maine depot.

Box No.

- 24, Grove and Fourth streets.
- 26, Central avenue and Sixth street.
- 27, Hough and Grove streets.
- 28, Central avenue, near Hill street.
- 29, Corner Central avenue and Abbott street.
- 31, Central avenue and St. Thomas street.
- 32, Central avenue and Orchard street.
- 34, Central avenue and Silver street.
- 35, Spring and Locust streets.
- 36, Elm street, near Hamilton.
- 37, Central avenue and Locust street.
- 38, Central and Stark avenues.
- 42, Washington and Belknap street.
- 43, Washington, corner Prospect street.
- 45, Washington and Lexington streets.
- 46, Silver and Atkinson streets.
- 47, Arch, near Washington street.
- 48, Bellamy road.
- 51, Mt. Pleasant and South Pine street.
- 65, Private, Cocheco Manufacturing Co.
- 324, Sawyer's upper mill.
- 325, Sawyer's lower mill.
- 22-22-22-22, No school.
- 3-3-3, Engineers' call.
- 5-5-5-5-5, Military call.

FIRE ALARM.

One tower striker attached to Central avenue Baptist church bell.

One tower striker attached to city opera house bell.

One tower striker attached to Sawyer's mill bell.

One steam gong attached to Williams' belt factory.

Respectfully submitted,

GEORGE E. VARNEY,

Chief Engineer.

Dover, N. H., December 31, 1901.

ANNUAL REPORT

OF THE

Joint Standing Committee on Bridges.

GENTLEMEN OF THE CITY COUNCILS:

To accurately anticipate the financial needs of the Bridge department for any given year, is a problem, the solution of which is extremely difficult, if not altogether impossible. Defects occur which demand immediate attention, and any attempt at evasion, or any evidence of neglect upon the part of the committee, might not only result in serious injury to persons or property, but plunge the city into possible litigation and all its attendant expense.

While the appropriation for bridge work is largely predicated upon the expenditures reported in previous years, the dictates of economy full often fixes the limit upon the short side of actual requirements, and leaves the committee no alternative other than to protect the interests of the public, even though it entail a deficit, or place themselves in a position where they might be open to criticism on the ground of culpable negligence.

Although the expenditures for the year are apparently considerably less than the sum allotted for bridge work, the true situation would have shown an overdraft, as one claim received late in the month of December, considered excessive by your committee, has not been passed upon, and consequently has not been paid at the time of filing this report. As our duties close with the advent of the new year, we respectfully suggest that the above claim be referred to a joint special committee of the incoming city councils, with full power to settle the same upon such basis as may seem to be fair and just to all parties in interest.

During the year the Central avenue and lower Washing-

ton street bridges have been partially replanked, and necessary repairs made upon the Sawyer and Fresh creek bridges. Owing to an unusual amount of heavy teaming over this latter structure during the year, it is fair to assume that considerable work will be required thereon in the early spring.

The Fourth street bridge has been strengthened by the addition of several piles and cross-beams, and every reasonable precaution taken to guard against disaster during the time of the spring freshets.

Frequent inspections have been made during the year of the bridges spanning Dover's numerous water-ways, and every reasonable measure adopted to insure, not only the safety of the traveling public, but the rights of the city whose interests it has been our pleasure to represent.

For a detailed statement of the claims paid by the department during the year, you are respectfully referred to the published statement in the annual reports of the city, and bills on file in the office of the city clerk.

Respectfully submitted,

ORLANDO R. WIGGIN,

F. E. ANDREWS,

JOHN L. FOSS,

Committee.

Dover, N. H., Jan. 1, 1902.

ANNUAL REPORT
OF THE
CITY SOLICITOR.

GENTLEMEN OF THE CITY COUNCILS :

I herewith submit my report as solicitor for the year 1901. The only suit against the city is that of J. H. and W. B. Roberts, which is now pending before the Superior Court of New Hampshire.

As to questions submitted to me by the councils, I have rendered opinions from time to time, the substance of which you are acquainted with.

Respectfully submitted,

DWIGHT HALL,

City Solicitor.

Dover, N. H., December 31, 1901.

ANNUAL REPORT

OF THE

CITY MARSHAL.

TO THE CITY COUNCILS OF THE CITY OF DOVER:

I submit herewith a report of the police department for the year ending December 31, 1901.

The police force consists of the following officers, viz.:

Marshal—James Fogerty.

Assistant Marshal—Thomas W. Wilkinson.

Day Police—Charles E. Stevens, John Cornell.

Night Police—William A. Brownell, Edgar Caverly, Thomas Fody, Walter S. Sterling, Edward S. Young, William H. Tibbetts, George E. Smith.

The number of arrests for the year has been 798, of which number 737 were males, and 61 females.

These arrests were made for the following causes, viz.:

Drunks	458
Keeping for sale	164
Assault	43
Safe keeping	22
Larceny	16
Vagrants	11
Keeping open on Sunday	11
Detained on suspicion	9
Drunk in house	8
Keeping open after ten	7
Receiving stolen goods	6
Disorderly conduct	6
Keeping unlicensed dogs	5
Selling spirituous liquor	4
Fast driving	3
Truant	3

Bastardy	3
Profane language	2
Receiving money under false pretenses . . .	2
Highway robbery	2
Rape	2
Assault with intent to kill	1
Contempt of Court	1
Robbery	1
Insane	1
Throwing stones at B. & M. cars	1
Manslaughter	1
Disturbance in opera house	1
Gambling	1
Entering and stealing	1
Breaking and entering in night time	1
Putting obscene pictures on school house wall.	1
Total	798

These arrests were disposed of as follows, viz.:

Paid fines and costs	370
Sentenced to house of correction	76
Ordered to leave town	61
Jail	60
On file during good behavior	55
Discharged	42
Disclosed and discharged	35
Bound over to superior court	22
Discharged without trial	15
Suspended	10
Delivered to out of town officers	8
Appealed	8
Sentence suspended on going out of business .	8
On file	6
Case continued	6
Warrant quashed	4
Sentence suspended on taking pledge	4

Sent to state's prison	2
Sent to industrial school	2
Nolle prossed	2
Sent to insane asylum	1
Married and discharged	1
Total	<hr/> 798

The number of lodgers at the police station has been 832.

Number of complaints investigated by police without arrest, 73.

The doors of 42 stores have been found open by the night officers, and the owners notified.

One body of party drowned, was recovered by the police officers.

Six lost children were found by the officers of this department.

Amount of property lost or stolen, \$2,700.00. Recovered by officers and delivered to owners, \$1,964.14.

I have collected from costs and fines, \$6,045.28; of this sum, \$5,065.98 has been paid into the city treasury and the balance, \$979.30, I have paid for complaints and warrants, witnesses, deputy sheriff's fees, carting, etc.

A detailed statement of the above amounts has been submitted to the councils at every monthly meeting.

In addition to the above sum, the clerk of the police court has collected and paid to the city treasurer the sum of \$38.96, making the aggregate net income of the police department \$5,104.94.

The city councils during the year revised the ordinance relating to the police department and the same has been improved and simplified. I caused a copy of the same to be printed and delivered to each officer, so that they might be familiar with its requirements.

The police force has worked in harmony during the year, thereby producing satisfactory results.

I wish to thank the mayor, justice and associate justice

of the police court, the city solicitor, clerk of police court, the city councils and city clerk for their uniform kindness and courtesy to me, this assistance having made the work of my department easier.

Respectfully submitted,

JAMES FOGERTY,

City Marshal.

Dover, N. H., December 31, 1901,

ANNUAL REPORT

OF THE

CLERK OF THE POLICE COURT.

TO THE CITY COUNCILS OF THE CITY OF DOVER:

Gentlemen:—I beg leave to submit my report as clerk of the police court of the city of Dover for the year ending December 31, 1901.

On the police court criminal docket there have been entered seven hundred and forty-four complaints for the following causes, viz:

Abusing female child	1
Aggravated assault	2
Assault and battery	39
Attempt to kill	1
Bastardy	2
Breaking, entering and stealing	5
Disorderly conduct	10
Drunkenness	432
Fast driving	3
Gambling	1
Indecent exposure	1
Keeping open on Sunday	14
Keeping open after 10 p. m.	7
Keeping unlicensed dog	5
Larceny	16
Making obscene pictures	1
Manslaughter	1
Mayhem	1
Receiving stolen goods	4
Robbery	2
Runaway and stubborn child	1

Selling liquor	4
Throwing stones	1
Truancy	1
Using offensive language	1
Using profane language	9
Vagabonds	10
Vagrancy	2
Violation of liquor law	164
Wanton injury to property	3
Total	<hr/> 744

These complaints have been disposed of as follows :

Appealed	15
Bound over	27
Cases laid on file	6
Committed to house of correction	79
Committed to jail	60
Committed to State Industrial School	2
Continued for further order	3
Defaulted	5
Discharged	27
Disclosed and discharged	35
Nolle Prossed	2
Paid	373
Quashed	4
Sentence suspended on condition respondent leave the city	24
Sentence suspended on condition respondent take the pledge	4
Sentence suspended during good behavior	70
Sentence suspended on condition respondent go out of business.	8
Total	<hr/> 744

On the civil docket of the police court there have been

entered forty cases. There have been \$38.96 in fees collected and paid to the city treasurer.

Respectfully submitted,

GEORGE T. HUGHES,

Clerk of Dover Police Court.

Dated December 31, 1901.

ANNUAL REPORT
OF THE
CITY PHYSICIAN.

GENTLEMEN OF THE CITY COUNCILS:

I hereby submit the following report for the year ending December 31, 1901.

I have vaccinated during the year over 350 pupils of the public and private schools, including re-vaccinations; have made 25 house calls; have made 23 visits to the police station, and prescribed in my office for 22 individuals, and have made 6 visits of inspection to localities alleged to be in an unsanitary condition.

Respectfully submitted,

WILLIAM H. DYER, M. D.,
City Physician.

Dover, N. H., December 31, 1901.

ANNUAL REPORT

OF THE

BOARD OF HEALTH.

GENTLEMEN OF THE CITY COUNCILS:

We beg leave to submit the following report of the board of health for the year ending December 31, 1901.

The past year has been an eventful one in some respects for the board. The increased number of vaccinations shows that the people are alert to the small pox about us, and the board is prepared to cope with such an epidemic should it arrive.

We have remedied the night cart nuisance, and now have a system of cleaning vaults, cesspools, etc., on par with any city in New England.

There is no doubt in our minds that during the past year, the board of health, by its gratuitous supply of anti-toxine to poor families, has averted an epidemic of diphtheria in the city.

The examination of the city drinking water shows that it compares favorably with that of any other city in New England.

In conclusion we wish to thank the city government for the increased appropriation given this department, and assure them that it has been needed and expended with due discretion.

Respectfully submitted,

WILLIAM H. DYER, Chairman, (ex-officio)

JAMES FOGERTY, (ex-officio)

C. M. JONES, Executive Officer,

Board of Health.

Dover, N. H. December 31, 1901.

ANNUAL REPORT

OF THE

Executive Officer of the Board of Health.

GENTLEMEN OF THE CITY COUNCILS:

To be held responsible for the condition of the public health, is a trust, the importance of which cannot be too seriously regarded. Dilatoriness or experimentation are not among the conceded privileges of a health officer. He must promptly and intelligently solve even the most complex problem touching the health of the community, carefully weighing the rights of the individual in their relation to the common weal that no unnecessary hardship may be imposed.

The solution of any question where contending interests are involved, requires firmness and discrimination. It is not within the province of the board to consider personal preferences to the sacrifice of corporate good, or in any way permit the convenience of the individual to militate against the public safety. The board of health is not a board of strategy. Its actions and its decrees must be founded upon a comprehensive knowledge of all the attendant facts,—a knowledge based upon careful research and impartial investigation.

The board is vested with ample authority, either legislative or discretionary, to carry out the purposes for which it is organized, and with intelligent cooperation on the part of the inhabitants, our city would soon resolve itself into an ideal residential locality.

QUARANTINE.

Under and by virtue of an act of the New Hampshire legislature, approved February 20, 1901, every physician called

upon to attend a sick person, and who finds the cause of such sickness to be of a contagious or infectious character, and the general public likely to be endangered thereby, may quarantine such person's residence at once and report the fact to the board of health.

Not only are physicians required to report all such cases, but whenever any person, other than a physician, knows or has reason to believe that any member of his family or household (boarder, roomer or visitor), has either small pox, diphtheria, membranous croup, scarlet fever, measles, or any other malignant communicable disease, he shall, within twenty-four hours, give notice thereof to the board of health, and such notice shall be given either verbally to one of the health officers, or by a communication addressed to the board of health and duly mailed within the time specified.

It is also provided that the board of health, upon being notified of the existence of either of the four diseases first above named, or of other malignant pestilential disease shall immediately quarantine the infected house, premises, or rooms so as effectually to isolate the case, and the family, if necessary, in such a manner as will prevent the spread of the disease.

The provisions of this law are mandatory, and any violation thereof is punishable by a fine of ten dollars for each offense.

NUISANCES.

The following nuisances have been found and the proper remedy applied :

Hog pens	11
Filthy cellars	13
Filthy yards	38
Filthy vaults	39
Dogs in cellars	5
Hens in cellars	7
Manure heaps	5
Sewer obstructions	51

Vaults overflowed	12
Slops and filth on ground	14
Total	195

DEAD ANIMALS BURIED.

Horses	6
Swine	18
Hens	29
Dogs	42
Cats	92
Total	187

VAULT CLEANING.

Acting upon recommendations submitted by the board of health, the city councils have revised the ordinance governing the department, with special reference to the method of cleaning vaults and cesspools. The new law provides that "no person shall open any vault, privy or cesspool, for the purpose of removing the contents thereof, or haul such contents through any street or highway of the city, between the hours of six o'clock in the morning and ten o'clock in the evening of any day, unless licensed so to do by the board of health; and no such license shall be granted unless the person or persons engaged in such work shall use such odorless sewage disposal outfit or other improved vault cleaning method, as may have been approved by said board. The fees for all services performed by such licensee, as well as all matters appertaining to the use and management of all vault cleaning apparatus by him employed, shall be regulated by, and be under the absolute control of the board of health."

It is further provided that no person or persons shall be debarred from "engaging in the business of cleaning out vaults, privies, or cesspools, between the hours of ten o'clock in the afternoon and six o'clock in the forenoon, provided such person or persons shall hold a license so to do from

the board of health, and shall, in all respects, conform to the rules, regulations and conditions imposed by said board relative thereto."

This legislation was clearly in the interest of sanitary reform. Under the system formerly in force, of using practically open carts for the purpose of removing the contents of vaults, etc., not only was the air more or less vitiated and the public health correspondingly endangered, but every sense of propriety and decency was outraged by their unclean, unsightly appearance.

By placing all apparatus used for vault cleaning purposes under the supervision and control of the board it was the evident intent of the councils not only to place the burden of responsibility upon that branch of municipal service where it properly belongs, but to so legislate that the avenue of remedy for any infraction of the rules of the board, or any infringement upon the rights and privileges of the people, might be clearly defined.

SEWERS.

The year has been marked by appreciable progress along the line of sewer extension. The unsanitary condition heretofore existing in the vicinity of Baker street, owing to the exhalations from exposed sewage and other deleterious matter, has been largely remedied by the extension of the sewer from Hill to Ham street, on the line of the brook.

The sewer on Central avenue between Waldron and Orchard streets has been lowered, much to the gratification of abutting tenants. Numerous complaints, however, have been filed by occupants of buildings along the line of this sewer immediately south of Orchard street, and a suit at law is now pending for damages alleged to have been sustained by reason of its insufficiency and want of repair.

The Broadway brook sewer from Broadway to the Boston & Maine R. R. is in a dilapidated condition, and must receive early attention. The present sewer was constructed eleven years ago, and has become so decayed as to be practically worthless.

The Drew brook continues to be a menace to the public health and a perpetual nuisance to residents in its immediate vicinity. All the sewage east of Locust street and south of Tuttle square empties into this natural stream of water, and the exhalation therefrom in the warm months is both offensive and injurious.

TABLE OF MORTALITY.

Giving the number of local deaths, with a classification of diseases or causes of death, for the year 1901.

CAUSE OF DEATH.	NO.	CAUSE OF DEATH.	NO.
Accident, Drowning	2	Heart Failure	6
Accident, Machinery	1	Hemorrhage of Bowels	1
Accident, Railroad	1	Hemorrhage of Stomach	2
Acute Toxæmia	1	Herniplegia	1
Alcoholism	2	Inanition	2
Anæmia	2	Intestinal Catarrh	1
Angina Pectoris	1	Jaundice	1
Apoplexy	4	La Grippe	5
Auto-Infection	1	Locomotia Ataxia	1
Brain Disease	1	Mal-nutrition	1
Brain Fever	1	Mara-mus	3
Bright's Disease	7	Measles	1
Burned to Death	1	Meningitis	3
Cancer	5	Mitral Regurgitation	1
Cancer of Mouth	1	Nephritis	6
Carcinoma of Mouth	5	Old Age	11
Carcinoma of Breast	2	Osteo-Sarcoma	1
Cardiac Dilatation	1	Pachymeningitis	1
Catarrhal Pneumonia	1	Paralysis	4
Cerebral Apoplexy	1	Paralytic Dementia	1
Cerebral Embolism	2	Paralytic Shock	3
Cerebral Hemorrhage	5	Perotinitis	1
Cerebral Meningitis	2	Phthisis	4
Cerebral Paralysis	1	Pneumonia	11
Cerebral Thrombosis	1	Premature Birth	9
Cholera Infantum	21	Probably Suffocation	1
Compression of Lungs	1	Prolapse of Cord	1
Congestion of Brain	1	Ptomaine Poisoning	2
Congestion of Lungs	1	Pulmonary Oedema	1
Consumption	4	Pulmonary Phthisis	6
Convulsions	2	Rheumatism	1
Diabetes	1	Rheumatic Fever	1
Diabetes Mellitus	2	Scald	1
Diarrhœa	3	Senile Debility	1
Diphtheria	5	Septicæmia	1
Dysentery	1	Spinal Paralysis	1
Eclampsia	2	Stillborn	10
Erysipelas	1	Sunstroke	1
Exhaustion	1	Surgical Shock	1
Fibro-Cystic Tumor	1	Tuberculosis	11
Gastric Cancer	1	Typhoid Fever	3
Gastric Catarrh	1	Ulceration of Duodenum	1
Gastritis	2	Unknown	4
Heart Clot	1	Uræmia	2
Heart Dilatation	2		
Heart Disease	13		251

The total number of deaths reported to the city clerk during the year 1901 was 320, of which number 69 occurred

in other places, the bodies having been brought to Dover for interment.

The following table, showing the annual local death rate for the past twelve years, demonstrates that the mortality for the past twelve months is considerably below the normal limit, the number of deaths for the year being twenty-five less than the general average for the period mentioned. In this connection it should also be remembered that the population of our city has materially increased during the past few years.

YEAR.	NO. DEATHS.	YEAR	NO. DEATHS.
1890	291	1896	241
1891	307	1897	258
1892	331	1898	287
1893	339	1899	260
1894	214	1900	279
1895	241	1901	251

CONTAGIOUS DISEASES.

The following table shows the number of cases of infectious diseases reported to the board during the past year and the number of resultant deaths:

DISEASE.	CASES REPORTED.	NUMBER OF DEATHS.
Croup	1	0
Diphtheria	39	5
Measles	79	1
Scarlet Fever	11	0
Typhoid Fever	21	3
Whooping Cough	0	0
Total	151	9

The city of Dover should take early action relative to

procuring convenient accommodations for patients afflicted with the more malignant forms of contagious diseases. While we have been extremely fortunate in the past, we know not what may be in store for the future, and our only safety lies in being prepared to cope with pestilential outbreaks in every form.

PRINCIPAL CAUSES OF DEATH.

By referring to the statistics presented by the state board of health, we find that with only three exceptions, and those for the years 1892, 1898 and 1899, consumption has stood at the head of the list as a cause of death ever since the state has had any accurate system of registration.

This disease has always been regarded as the most fatal with which we have to contend, but it is gratifying to be able to show that in recent years its mortality has been materially reduced in New Hampshire, as well as in other states where efficient sanitary work has been done, and where the people have been enlightened as to the true nature of this malady.

The following table shows the number of local deaths from consumption, pneumonia, heart disease, old age, and cholera infantum, by years since 1898.

CAUSE OF DEATH.	1898	1899	1900	1901	TOTAL.
Consumption	27	25	27	25	104
Pneumonia	20	20	33	14	87
Heart Disease	16	17	25	13	71
Old Age	21	19	10	11	61
Cholera Infantum . .	12	11	14	21	58

By computation it will be seen that over one-third of all the deaths reported during the past four years, have resulted from the five causes included in the foregoing table.

PREMISES INSPECTED.

Under the rules of the board the following inspections have been made during the year:

Dwellings	1,417
Tenements	3,012
Churches	1
Stables	14
Markets	8
Hotels	5
Stores	102
Schoolhouses	9
Public buildings	3

GARBAGE WAGON.

The system of garbage collection is not only an important adjunct to the work of the department, but is productive of as much real good, expense considered, as any municipal project of recent years. The work of the collectors would not only be made much easier, but a larger number of collections could be made and the route correspondingly extended, if householders would provide more convenient receptacles for their refuse matter. It is also suggested that covers be provided for all receptacles, that the contents thereof may be as free from frost as possible. By an observance of this suggestion contributors will find that their ash cans and barrels will last much longer, and the collectors saved considerable annoyance and delay.

DISINFECTION.

The policy of the board, in its treatment of infectious diseases, has been outlined in previous annual reports. We contend that the most approved methods of treatment, both during the progress of the disease and the convalescence of the patient, should be used. The exercise of pains-taking care in the work of disinfection not only precludes the possibility of an extension of the disease, but is

a right which every citizen, no matter what his station in life, can rigidly demand. To properly perform the work required along this line, as well as the necessity of meeting the ordinary household needs of families isolated by order of the board, has caused an unusual demand upon the department resources.

The financial needs of the department for any given year, so far as the routine work of the board is concerned, can be readily approximated, but the expense incident to epidemical outbreaks is entirely contingent upon the extent and duration of the disease. To accurately predetermine the amount of money required for the maintenance of the department is manifestly impossible. It has been our aim to keep within the limits fixed by our appropriation—never exorbitant—yet it is not always possible to do so. Exigencies arise which will admit of no evasion. The public health must be conserved, and he who neglects any jot or tittle of his duty along that line is unfit to hold any position of public responsibility.

In recognition of the many kindnesses received at your hands I return my grateful acknowledgments.

Respectfully submitted,

C. M. JONES,

Executive Officer.

Dover, N. H., December 31, 1901.

ANNUAL REPORT
OF THE
Board of Trustees of Pine Hill Cemetery.

GENTLEMEN OF THE CITY COUNCILS :

We submit herewith the seventh annual report of the board of trustees of Pine Hill cemetery, of which report the reports of the treasurer, financial secretary, and superintendent of burials, also herewith presented, were, by vote of the board of trustees, made a part.

BOARD OF TRUSTEES.

Name.	Term Expires.
Charles E. Wendell	March, 1902
Charles H. Sawyer	March, 1903
Elisha R. Brown	March, 1904
Henry Law	March, 1905
James E. Lothrop	March, 1906
A. G. Whittemore (mayor) ex-officio	Jan'y, 1902

ORGANIZATION.

President—Hon. A. G. Whittemore.

Clerk—Fred E. Quimby.

Treasurer—William K. Chadwick.

Superintendent of Burials—Frank P. Coleman.

STANDING COMMITTEES.

Finance—Messrs. Whittemore, Law and Brown.

Cemeteries—Messrs. Law, Wendell and Sawyer.

Personal Property—Messrs. Lothrop, Sawyer and Wendell.

While changed local conditions necessitated the adoption of certain restrictive legislative remedies during the year,

the general policy of the board, as expressed in previous annual messages, remains undisturbed.

The usual routine work has been performed, and the extension of the grounds pushed forward as rapidly as opportunity, and the means at command, permitted. A sufficient area in the new part of the cemetery has been developed to meet all immediate demands, and preliminary measures have been taken to extend the work on a larger scale during the coming season.

CEMETERY TRUST FUNDS.

The city councils have adopted the provisions of Section 1, Chapter 40, Laws of the State of New Hampshire, passed January session, 1899.

Under this new law the city treasurer is compelled to open an account with each trust, in a book provided for that purpose, which book shall be open to public inspection, credit each fund with the interest as provided by law (3 1-2 per cent.), and debit such account with the amount paid out for care of the particular lot or section enumerated in said trust, and report in detail to the board of trustees at the close of each municipal year.

In this connection it may not be inappropriate to call attention to a resolution passed by the board of trustees at its regular meeting in June, which resolution reads as follows:

“That the superintendent be and hereby is directed to notify all lot owners having upon their lot, in any manner, the words ‘perpetual care’, or any other word or words implying that said lot is to be maintained *in perpetuum* by the cemetery department, to remove the same forthwith, unless an acceptable amount has been, or is immediately, deposited with the city treasurer to secure such care.”

This action was considered necessary by the board, in order to protect itself against the reproach which would inevitably follow, should any lot so wrongfully designated give evidence of inattention or neglect.

Every fund, whether deposited for the benefit of the cem-

etery as whole, or for the care of any particular lot or grave, is a sacred trust, and to the fulfillment of the specific conditions of that trust the trustees are both legally and morally bound.

GENERAL.

On the 17th day of May, after a long period of negotiation, the trustees secured possession of the lot immediately east of the receiving tomb, thus rendering it possible to enlarge that structure, should it, at any time in the future, be found necessary.

Negotiations are also in progress looking to the purchase of additional land in the vicinity of the superintendents office. The object of the trustees in enlarging their possessions at this point is to secure space for structural extensions, if desired.

Upon the 30th of June, the office of collector and accountant was abolished, the duties and responsibilities of that office being transferred to and vested in the treasurer of the board. The consolidation of these offices was effected in the interest of those having financial dealing with the department, it being the opinion of the board that not only should the books and accounts be easily accessible, but that they should, for greater security, be deposited in the safety vaults of the city.

The work of taking a complete census of the Hill, has been begun, and will be continued as opportunity permits. As the number of interments undoubtedly exceed 15,000, and as the value of the record, when completed, will depend largely upon its accuracy, it must be readily understood that the successful accomplishment of this task will require both time and painstaking research. The chairman of the committee on cemeteries has this work in charge, and his untiring zeal in all matters pertaining to cemetery interests, is a sufficient guarantee that this important undertaking will be thoroughly and accurately carried out.

An order promulgated in mid-summer, having for its ob-

ject the straightening of all head stones and tablets that had fallen down or become unsightly from any cause, has had the tendency to dissipate, in a measure, the spirit of negligence heretofore existing, and materially improve the appearance of the grounds. While much has been accomplished along this line, the action of the changing seasons upon insecure foundations and improperly embedded headstones and tablets, will continue to leave its baneful effects until the primary cause is removed.

With an appropriation of nearly \$500.00 less than the average annual allotment for cemetery purposes during the ten years immediately preceding our induction into office, we view with satisfaction the record of our stewardship. We not only invite your careful inspection of the progress made, but venture the assertion that even the most ardent advocate of the changeful system of other years, will view with complacence, if not with pleasure, the benefits resulting from a fixed and definite policy of management.

ANNUAL REPORT

OF THE

Financial Secretary of the Cemetery Trustees.

TO THE BOARD OF TRUSTEES OF PINE HILL CEMETERY:

Gentlemen:— I have the honor to herewith submit the report of the financial secretary for the term ending December 31, 1901.

The following tables give the amount of income, the amount collected, and the amount turned over to the treasurer during the year 1901:

The first table gives the amount uncollected January 1, 1901, also the charges for the year.

No. 1.	Balances.	1901.	Total.
Work on Lots	\$432.14	\$765.80	\$1,197.94
Care of Lots	416.50	762.00	1,178.50
Interments	221.00	526.50	747.50
Rent of Tomb	2.50	70.50	73.00
Income of Trust Funds		236.52	236.52
Income of Woodman Trust		44.30	44.30
Rent of House	18.00	66.00	84.00
Rent of Pasture		20.00	20.00
Sale of Hay		114.91	114.91
	\$1,090.14	\$2,606.53	\$3,696.67

The second table shows the aggregate of the year's charges, the amount collected, the amount abated, and the amount uncollected:

No. 2.	Charges.	Collected.	Abated.	Uncoll'c'd
Work on Lots	\$1,197.94	\$528.29	\$2.00	\$667.65
Care of Lots	1,178.50	340.00	14.00	824.50
Interments	747.50	527.00	3.00	217.50
Rent of Tomb	73.00	73.00		
Income of Trust Funds	236.52	236.52		
Income of Woodman Trust	44.30	44.30		
Rent of House	84.00	74.00		10.00
Rent of Pasture	20.00	10.00		10.00

ANNUAL REPORT

OF THE

SUPERINTENDENT OF BURIALS.

TO THE BOARD OF TRUSTEES OF PINE HILL CEMETERY:

Gentlemen—I have the honor to submit herewith the report of the superintendent of burials for the year ending December 31, 1901.

Although the expenses of the department for the year 1901 are nearly \$400.00 less than those reported for the twelve months immediately preceding, yet the work accomplished has been productive of gratifying results. Closing the year 1900 with only about twenty lots available for interment purposes, we now have about sixty desirable lots graded and ready for purchasers. Preliminary measures have also been taken to largely increase this number during the coming year.

Besides the work involved in general care of the grounds, opportunity has been found to beautify and adorn both the old and new part of the cemetery, by setting out shade trees of various kinds, and planting rose bushes and other flowering shrubs. The Connell and Redman houses have also been quite extensively repaired, three hundred and fifty feet of stone gutters paved, and several hundred feet of old gutters relaid.

A row of maples has been set out around the old burying ground at Dover Neck, and other work performed looking to the preservation of that ancient burying place.

Orders for the annual care of lots are yearly increasing, which together with the steadily growing number of lots placed in perpetual care, tends to greatly improve the appearance of the grounds, banishing, as it does, that lingering

evidence of neglect, which formerly characterized so large a part of our public cemetery.

During the year thirteen new monuments have been erected.

The earnings of the department for the year, including sale of hay, rent of house and lands, aggregates \$2,606.53, exclusive of income from sale of lots.

We give below a list of the interments for the year, showing the various details required by the rules of the board:

Date.	Name of Deceased.	Ave.	Lot.	Grave.
Jan. 2	Hannah L. Hill	L	316	8

DOVER PUBLIC LIBRARY.

ANNUAL REPORT

OF THE

BOARD OF TRUSTEES.

TO THE CITY COUNCILS AND CITIZENS OF DOVER:

During the closing year, your trustees have held fast to the popular bent previously given to the control of this public library. The possibilities of this intelligently executed scheme are far greater than can be outlined here. It affords a side calculated to directly interest and benefit people who make no pretension to mental refinement or discipline, but who crave the ministrations of such a movement, and appreciate and profit by it. It brings the culture-power of books to bear directly upon the lives of the common people.

We are fully aware that this treatment of the subject does not rise to the level of the theme. We are cold and formal when we would be inspired. Our space is limited. But we bear in mind that, besides the flourish of trumpets and shoutings of satisfaction, there is a humbler path in which patient continuance has its special sanction and its assured reward. Of course, the difficulties under which this scheme may, at times, have been pursued, will form no excuse for the shortcomings of performance, but it should be remembered that the unreached is the usual incident of a protracted task. It remains that we are confident that this movement will be a source of help, encouragement and permanent usefulness to the large class of people who have scant hours for reading.

Passing onward to a further consideration of this aim

and purpose, it will not be unfitting to appeal to such persons as are expected to receive the benefits. How often do we hear men and women bemoaning their lack of education, generally because of a lack of opportunity when young, or regretting that they failed to improve what was available. As they go out into the world, they feel the need of wider knowledge, but realizing that their school days are gone, nothing seems to remain but sorrow and regret. To all such who abide in Dover, this reasoning is entirely fallacious, for they have in the free public library an educator that can give to them all they are able to absorb, if only they will accept its good offices. In short, the free public library is the poor man's school, where he may procure knowledge so long as he lives.

But this effort to reach the masses has not been allowed to interfere with plans for furnishing in every literature the best *lettres de noblesse*. And so it has come about that while the misguided and uninformed are largely benefitted, students, teachers and persons of infinite leisure need not form opinions in haste, and while not resting in doubt, can suspend judgment and wait for fuller knowledge. And even the business man whose daily avocations send him into the throng of the busy world, can find books in our library which will offer an ever new field of relaxation, in which the turf is always springy, and the flowers continually fresh and brilliant. Jaded as he may be with task and concern, he can breathe a purer atmosphere; converse with loftier minds; look forward to higher than finite interests. There are wants, perhaps faults, and we are far from having reached the ideal condition, but in the progress of which all are conscious, and which so many have watched and participated in, in that broader spirit, in that higher consciousness, in that truer comprehension of library work, we see how far we have advanced from the past, and reckon only the milestones of progress in the future.

The reading room is occupied every day by magazine and newspaper readers. The reference room has become a con-

stant and decided attraction. The facilities now offered to the pupils in the public schools are beyond what any one dared to hope for, and literary, scientific, art, and musical clubs receive due consideration. The circulating department is frequently enriched with books that appeal to both the imaginative and plodding sections of the reading fraternity.

Thinkers and writers find growing advantages, and since the new card catalogue case went into commission, the great mass of books has been freer to all concerned. The library has become an immense beehive of readers, and it is so helpful and accessible that the public is more than satisfied, and no one claims that it costs the city too much to run it on the present lines.

As the coadjutor of the schools and the industries and social aims of the community, the public library is becoming recognized as the co-ordinating factor of all its intellectual life. It is today one of the great benefactors of Dover. It affords one reply to Mallock's query, "Is life worth living?" It stands for independence of thought, and meets Whitman's plaint:

"When the psalm sings instead of the singer,
When the script preaches instead of the preacher."

And it may be confidently said that the desire and capacity of the people for the kind of instruction afforded by the library, is no longer doubtful. For no other purpose do they more willingly tax themselves.

In conclusion, the board of trustees takes leave to add that it has, at all times, in good faith endeavored to perform its duty to the public according to its best judgment; and that it closes its labors for the year in full confidence that it has not failed to accomplish for the library service, substantial and lasting benefits.

For the Board of Trustees,

JOHN B. STEVENS,

Secretary.

Dover, N. H., December 31, 1901.

Dover, N. H., December 31, 1901,

DOVER PUBLIC LIBRARY.

REPORT OF THE LIBRARIAN.

TO THE BOARD OF TRUSTEES OF THE DOVER PUBLIC LIBRARY:

Gentlemen—The nineteenth annual report of the library, showing its work for the year 1901, is herewith presented.

THE YEAR'S GROWTH.

Whole number of volumes reported last year . .	26,124
Withdrawn from circulation during the year . .	54
	<hr/>
	26,070
Number of volumes purchased this year	754
Number of volumes received from the bindery	135
Number of volumes replaced by borrower	2
Number of volumes received from Government	253
Number of volumes received by gift	576
	<hr/>
Total number of accessions . .	1,720
	<hr/>
Total number volumes now in the library .	27,790

USE OF THE LIBRARY.

To the reading room have come on week-days, 26,682 visitors, on Sundays, 2,150. This shows an increase of 2,386 in the week-day and 420 in the Sunday attendance.

From the circulating department have been loaned 66,731 volumes, a decrease from last year of 1,650. Notwithstand-

ing the numerical decrease, the work at the desk has increased, because more people each year come with requests for assistance and look for that intelligent help which can be given only by exercise of thought and attention. For the first time in our history, the whole year's circulation has been effected without the loss of a single book.

GIFTS.

It is gratifying to report a larger number of gifts than ever before, seeming to show on the part of the public a growing feeling that the library is the place to deposit and preserve books. This is as it should be, and the wealth of the library is largely increased, when, as is the case this year, special collections are presented to it. From a former resident of this city, now living in Boston, has come a collection of music and music books numbering 360 volumes, including scores of oratorios and cantatas, church and choral music,—some of large historic value,—and a set of the author's own publications of school music. For these books new shelving was provided, and a special list is to be printed.

PICTURE WORK.

The great increase in facilities for producing good pictures has led to the wide use of illustration in all forms of study, and librarians, no less than book publishers, have been quick to grasp the opportunities of suggestion possible in a good collection of pictures. Last year this work was systematically begun with us, and throughout this year, as it has been possible without interfering with the usual routine work, we have added to the collection, filling in pictures with definite reference to the subjects which the study clubs were interested in, thus giving a large amount of satisfaction to some of the best classes of students in the city. The expenditure of money for this purpose has been small, but the labor involved has been considerable, and would hardly have been possible had not our younger assistants brought to the work great interest and deftness in mount-

ing. This allowed the older members of the force time for the necessary cataloguing, for to make the collection really practical, every picture has to have a card made for it, just as if it were a book. The collection now numbers nearly a thousand, and may be reckoned a valuable part of our library possessions.

A GLANCE BACKWARD.

This month completes the period of ten years that the library has been housed in the city building. At the time of its removal here, it was supposed that ample space had been provided for many years, yet already almost all wall and stack space is occupied, and it is growing difficult to provide for the yearly accessions. Nearly 12,000 volumes have been added in these ten years, a very good sized library of itself, and more than half a million books have been issued in circulation. Sometimes a glance like this at work in the mass enables one to realize, in some degree, the influence that the library in this time must have exerted on the life of the community.

The librarian has to thank the trustees for a four months' leave of absence through the summer, which enabled her to take a long-desired trip abroad. In her absence, the usual work of the library went on steadily and efficiently, with Miss Jenkins in charge of the circulation and Miss Hollingworth of the cataloguing. The usual cordial relations among the library force have prevailed throughout the year, and their work has been done with readiness and earnest intent to meet, in all possible ways, the demands of the public.

Respectfully submitted,

CAROLINE H. GARLAND,

Librarian.

December 31, 1901.

DOVER WATER WORKS.

WATER COMMISSIONERS.

CHARLES A. FAIRBANKS, President,
CHARLES W. DEMERITT,
JOHN B. STEVENS, Clerk.

WILLARD T. SANBORN, Superintendent.

Annual election second Tuesday in March.

(Term three years.)

CHARLES A. FAIRBANKS,	Term expires May 1, 1903.
CHARLES W. DEMERITT,	Term expires May 1, 1902.
JOHN B. STEVENS,	Term expires May 1, 1904.

DOVER WATER WORKS.

REPORT OF WATER COMMISSIONERS.

TO THE CITY COUNCILS OF THE CITY OF DOVER :

The fourteenth annual report of the water commissioners is hereby presented for the fiscal year ending December 31, 1901.

Much thought and consideration has been devoted to devising plans to make our water works still more successful in its work. In the matter of rainfall we have been very fortunate. In other directions success has attended our efforts.

We have secured economy of working. The cost of extensions, sure to be remunerative, and the interest account, have been met from income. The debt has been reduced by two thousand dollars. Surface breaks have been infrequent, and expenses small. Our coal was purchased before the recent rise in prices. We have been vigilant and successful in collection of money, and we have fewer outstanding bills than at the close of any previous year during the existence of the department.

One of the satisfactory incidents of the year is the demonstration that our water supply has not been contaminated by any external contributions of sewage or polluting materials. Heretofore frequent chemical tests have been made. This year, because of certain outside conditions, a thorough investigation was ordered. Percy M. Blake, who put the plant down in 1889-90, was employed to make a study of the surroundings of Willand pond. His report is attached, and because of his large experience and pronounced success in water supply and sewerage engineering, his findings may be considered authoritative. H. W. Clark, chief chemist of the Massachusetts State board of health, in charge

of the experiment station at Lawrence, Mass., who has made the chemical and bacterial examinations of water for that board for several years, and is undoubtedly the leading authority in New England on the qualities of water—see his reports in Massachusetts State board of health for 1899 and 1900—was selected to report upon samples of water. His findings will be read with satisfaction.

Repeated allusion has been made to the near need of supplementary pumping power. Renewed attention has been given to this problem, and we are still investigating.

We have but one new suggestion. The time has come when all water used in the city ought to be measured by a meter on the supply main. Every service pipe should be provided with a meter. Defective mains and services cause leaks which give no indication at the surface of the ground. Waste to prevent freezing of services is continuous through seasons of extreme cold. Deliberate waste by fastening open water closets is another misuse of water. In hot weather, faucets and lawn hose are left free to discharge day and night. To save water is to save coal. Pumping plants cost money. Meters will not annoy or restrict law-abiding consumers, but they will show waste. To sum up, the discovery and stoppage of waste and leakage would result in a material increase of revenue, provide for more extensive extensions, and the department would have a more intelligent, up-to-date knowledge of all services. No ordinary or inexpensive system of house to house inspection can cure these evils, and the resources of the department are insufficient to apply the remedy suggested.

Respectfully submitted,

CHAS. A. FAIRBANKS,

JOHN B. STEVENS,

Water Commissioners.

Dover, N. H., December 31, 1901.

AUDITORS' REPORT FOR 1901.

We, appointed by the city councils to examine and report upon Dover water works accounts for year 1901, have so examined the accounts and approved vouchers of John B. Stevens, clerk, and find that they correspond in the amounts of expenditure with the books of the city treasurer.

We have examined the accounts of the superintendent, Willard T. Sanborn, and find the same correct, and in agreement with the books of the city treasurer, and showing a balance of \$1,663.58.

APPENDIX C.

REPORT ON WILLAND POND WATER, BY PERCY M. BLAKE, CIVIL ENGINEER.

NOVEMBER 27, 1901.

BOARD OF WATER COMMISSIONERS, DOVER, N. H.

Gentlemen:—At your request I have made a careful inspection of the present condition of Willand pond and its watershed, one of the principal sources of water supply of Dover, and have obtained chemical and microscopical examinations of the water of the pond. The inspection of both pond and watershed was made on Wednesday, September 25, 1901, and the conditions I then found, and other details affecting the use of this water which I have since ascertained, may be briefly described as follows:

Your board will remember that I surveyed this pond very carefully in 1887, and ascertained its depth and storage capacity by many soundings made with precision.

Willand pond has no measurable streams of water flowing into it, and is fed mainly from underground sources; the evaporation from its surface in the average year is practically equal to the rain falling upon that surface in such year. Its surface area, when full to its average high water mark, was, in 1887, 78 3-4 acres; its total storage capacity, 514 million gallons; when drawn down 6 feet, its area was reduced to 69 1-2 acres, its storage capacity to 369 million gallons; when drawn down 10 feet, the area was 59 3-4 acres, storage capacity, 285 million gallons.

I stated in my report of 1887 that "There can be no question as to the capacity of Willand pond, to permanently yield an average daily supply of at least five hundred thousand gallons, while I believe that future records, if this source is adopted, would show it to have developed a capac-

ity equal to twice this amount." No accurate records of the amount of water which has been drawn from this pond by gravity or by pumping, have been kept by your board, but so far as I can judge from the information given me by Superintendent Sanborn, it appears that the capacity of this pond to furnish water has not been overrated.

The immediate question as to this source of supply, is the quality of the water. Extensive pleasure grounds have been constructed by the street railway company on the easterly side of the pond, and a small hotel is located near the northwesterly arm of the basin, and adjacent to the Granite State Park. The use of both pleasure grounds and park during the warmer months has increased, and the hotel does a thriving business for a few weeks in spring and fall.

Water is drawn from this pond for use in Dover through an 8-inch wrought-iron suction pipe extending out into the southerly arm of the pond a distance of nearly 700 feet and into water having a depth of 37 feet. This pipe terminates in a turned-up elbow unprotected by strainer or screens. As this pipe rests on supports its outer end is presumably some distance above the bottom of the pond, and the water being remarkably free from sediment and organic growths, the absence of screens in this case is probably immaterial.

I traversed the entire shore line of the pond for the purpose of learning its condition and whether or not any drains or channels were delivering refuse or other polluting materials into the basin. I found nothing of the kind, and aside from an indication of solutions of iron at a few points on the northerly and westerly shores of the pond, there was no suggestion of impurity; on the contrary, the water of the pond was practically colorless and contained no floating sediment. The entire shore line up to the extreme high water mark was a clean, washed gravel, mixed in some places with sand, and on the northerly shore the sand was in excess. It is seldom that so clean a shore line is found bordering on a natural pond.

The drainage of the Park Hotel is provided for by two

cesspools, the upper one receiving the flow from the hotel building and overflowing into the lower one, which is located at least 300 feet from the shore line of the pond. These cesspools, I was informed, are thoroughly cleaned twice a year and my inspection failed to reveal any connection between them and the water in the pond. Such percolation of the liquid contents of these cesspools as may take place through the soil would be so slow as to probably insure the thorough purification of the water long before it could reach and enter the pond.

An examination of the pleasure grounds or park controlled by the railway company shows that so far no effect has been produced upon the quality of the water of the pond by the use of these grounds by the large number of people who frequent them during the summer months. There are no drains discharging into the pond from these grounds.

The presence of a few old cans and bottles and fragments of crockery near or on the shore of the pond shows that picnic parties sometimes throw these articles away carelessly, and that the management of the park does not attend to the removal of such debris as promptly as it should. Boating parties also undoubtedly throw waste materials into the water of the pond, but the damage done thereby is sentimental rather than actual. Still a public water supply should receive the sedulous attention demanded by such sentiment, and as a guard against increased license on the part of those who use the pond and its surroundings for recreation and pleasure. The statutory provisions enacted for the purpose of protecting the public water supplies of your state from pollution are ample, if resorted to by your board, to insure a maintenance of the superior quality of Willand pond water. Chapter 76 of the Acts of 1895, Chapter 85 of the Acts of 1897, and chapter 57 of the Acts of 1899 provide ample protection and place the authority for securing this protection in the hands of your board and other sanitary officers of the city.

Special examinations of three samples of water taken

from this pond, and sealed by Superintendent Sanborn in the early morning of October 3, 1901, have been made at my request by Mr. H. W. Clark, the chemist of the Massachusetts State board of health, and his report thereon is as follows :

Boston, Mass., October 15, 1901.

PERCY M. BLAKE, C. E.

Dear Sir :—I enclose copies of the results of the chemical, microscopical and bacterial analyses of the three samples of water taken from different locations at Willand pond, Dover, N. H., October 3, 1901. The analyses of the three samples differ but slightly, and show that the pond water, in its present condition, is not only entirely suitable for public use, but furthermore, that it is an exceptionally good surface water.

The chemical analyses show it to be low in color, and containing little organic matter. The microscopical examinations show few organisms in the water, but asterionella and dinobryon were found, and these, if present in sufficient numbers, cause tastes and odors. These tastes and odors, however, beyond rendering the water disagreeable for domestic use, are undoubtedly harmless, and many times the number of organisms present in the samples examined could occur without affecting the quality of the water in these two respects. The bacterial examinations, while showing a considerable, but not unusual number of bacteria present, did not disclose any due to sewage contamination.

Comparing the results of these chemical examinations with those made by Prof. F. W. Morse in 1898, and in August of the present year, it will be seen that the water has somewhat less organic matter at the present time, and is, in all respects, of a character equal to that shown by his examination.

Yours very truly,

H. W. CLARK,

Chemist."

These analyses of Mr. Clark show, beyond any doubt, that the Willand pond water has not been contaminated by any external contributions of sewage or polluting materials. The presence of the organisms named indicates what is found in the best pond waters, i. e.,— the liability to occasional growths of organisms, which, in decaying, are likely to produce tastes and odors for a brief period of time. Some of the taste and odor producing organisms will be found in the warmer months when the temperature of the water is comparatively high; others will be found in the winter when the pond is frozen over, and the temperature of the water very low. The warming or cooling of the water is apt to produce circulating currents which liberate gases in the water, and even cause indirectly the formation of such gases. So that it may be said that water stored in natural or artificial basins, however clean and pure its origin, and however transparent and colorless it may be to the eye, may, at times and for brief periods contain tastes and odors which are plainly perceptible to sensitive people, and which may suggest the idea that the waters are not pure and wholesome. Of course if the occurrence of such tastes and odors is frequent, and the duration of them much prolonged, the removal of these unpleasant qualities by proper filtration becomes desirable, and may be effected at reasonable expense, but Willand pond is not to be classed with such waters; its water is exceptionally pure, and when slight tastes and odors occur in it, such water as may be required for drinking purposes, if drawn in advance of its use and set aside in a cool, dark place, will probably soon become free from all taste and odor.

A part of your water supply is drawn from the ground and has a low temperature. The mingling of the Willand pond water in warm weather with the colder spring water is likely at times to cause the appearance of a taste and odor, but I do not find upon inquiry, that you have been much annoyed in the past by such conditions. In the operation of your works it will be well to occasionally draw the water

in the Garrison Hill reservoir as low down as safety will permit, and then refill it by a little extra pumping as rapidly as possible. The occasional renewing of stored water is a good practice.

For furnishing data which will certainly be of value to you in future years, and especially if the city of Dover increases in population, I advise that a permanent guage be located in the pond at a point convenient to the pumping station, and a rain guage obtained and set in a proper manner, also convenient to this station. Notes of the height of the water in the pond should be made and the rainfall should be measured and both recorded in a book to be kept at the pumping station. In this book should also be kept the dates and number of hours of the pumping of water from this pond, with an estimate of the quantity pumped, made as closely as possible after testing the capacity of the pump at certain rates of speed (if such testing is practicable). Owing to the peculiar character of Willand pond, located as it is in a basin in the surrounding sandy plain, with no appreciable inflows of surface water, these records, after two or three years, will enable a reasonably safe estimate to be made of the ultimate capacity of this pond to yield water. The zero of the permanent guage on which the heights of water in the pond are read should be referred to the underpinning or floor level of the pumping station or some permanent object in the vicinity.

The autograph report of Mr. Clark, and the returns of the microscopical examination and the chemical analysis of the pond water are attached hereto; also, a memorandum of the public statutes of New Hampshire in force January 1, 1901, relating to the protection of sources of water supply, etc.

Yours truly,

PERCY M. BLAKE,
Civil Engineer.

COMMONWEALTH OF MASSACHUSETTS.

STATE BOARD OF HEALTH.

BOSTON, Mass., October 15, 1901.

PERCY M. BLAKE, C. E.

Dear Sir:—I enclose copies of the results of the chemical, microscopical and bacterial analyses of the three samples of water taken from different locations at Willand pond, Dover, N. H., October 3, 1901. The analyses of the three samples differ but slightly, and show that the pond water in its present condition is not only entirely suitable for public use, but furthermore, that it is an exceptionally good surface water.

The chemical analyses show it to be low in color, and containing little organic matter. The microscopical examinations show few organisms in the water, but asterionella and dinobryon were found, and these, if present in sufficient numbers, cause tastes and odors. These tastes and odors, however, beyond rendering the water disagreeable for domestic use, are undoubtedly harmless, and many times the number of organisms present in the samples examined could occur without affecting the quality of the water in these two respects. The bacterial examinations, while showing a considerable but not unusual number of bacteria present, did not disclose any due to sewage contamination.

Comparing the results of these chemical examinations with those made by Prof. F. W. Morse in 1898, and in August of the present year, it will be seen that the water has somewhat less organic matter at the present time, and is, in all respects, of a character equal to that shown by his examinations.

Yours very truly,

H. W. CLARK,

Chemist.

No. 3.—From mouth of cove at Granite State Park, 12 in. under surface in 6 feet of water.

JANUARY 1, 1901.

1895, Chapter 76. Section 1. (Headed, Protection from Pollution of Sources of Water and Ice Used for Domestic Purposes.) A fine of not over \$1,000 or imprisonment for not over one year, is the penalty imposed for polluting any waters or ice of wells, springs, brooks, lakes, ponds, rivers, or reservoirs, used as a source of public water or ice supply for domestic purposes. But this statute does not apply to the accumulation of saw-dust or bark arising by virtue of the lumber business.

Section 2. No person can cut ice from any waters used as public source of supply without first complying with such regulations as the local board of control or officers of a water company may make.

Section 3. Local board governs fishing, boating and the speeding of horses on the ice of any public waters.

Section 4. Bathing in such waters prohibited.

Section 5. Whoever shall willfully injure any of the property of any water company or of any city or town used by it in supplying water to its inhabitants, shall be punished by a fine not exceeding \$1,000, or by imprisonment not exceeding one year; and such person shall also forfeit or pay to such water company, city or town, three times the amount of actual damages sustained.

1897, Chapter 85. Section 1. Boards of health to inspect sources of domestic ice supply.

Section 2. If water polluted, board to give notice of danger.

Section 3. \$250.00 or six months' imprisonment is the penalty imposed for cutting ice from polluted water.

1899, Chapter 57. Section 1. Whenever any board of water commissioners, local board of health, or ten or more citizens of any town or city, have reason to believe that a

public water or ice supply is being contaminated or is in danger of contamination, and that the local regulations are not sufficient or effective to prevent such pollution, they may petition the State board of health to investigate the case and to establish such regulations as the said board may deem necessary for the protection of said supply.

Section 2. After due investigation, state board of health may make regulations.

Section 3. Any person violating any regulation established by the state board of health shall be punished by a fine of \$20.00 for each offense, and a certified copy, under oath, of such regulation, made by the secretary of the state board of health, or by the town clerk where the regulations are filed, shall be received as prima facie evidence of the existence of such regulation in any court of the state.

APPENDIX D.

REPORT OF SUPERINTENDENT.

TO THE BOARD OF WATER COMMISSIONERS :

Gentlemen:- Agreeably to the rules relating to the duties of the superintendent, I submit my annual report for the year ending December 31, 1901, it being the fourteenth annual report of the superintendent.

The condition of the water supplied to the city during the past year has been entirely satisfactory, and there has been a notable absence of complaints from takers. The season has been unusually favorable for an abundant supply. The pond has practically maintained its level during the year by reason of successive rains, a condition that has never occurred before. Usually the pond falls off during the summer months, and gains in winter and spring. This year the level has fallen off only four inches, which makes the outlook for next season very favorable. The auxiliary station on the shores of the pond has been run throughout the year, as the water level was not of sufficient height to run by gravity. The pumping plant has continued to run smoothly, requiring no repairs. The boiler has been regularly inspected, and reported to be in good condition. The Hussey springs have been regularly examined and cleaned out at intervals, and are delivering their normal quantity of water. The reservoir and receiving basin have been cleaned out and examined during the year, and are in good condition. The pumping station coal shed required to be levelled up, and a portion of the decayed sills renewed. The slate roof on the main building has been repaired. Aside from this, no repairs have been required on the buildings. The pumps have required no repairs during the year, and continue to render the service required. Several exten-

sions have been made during the year. Eighty-four feet of four-inch pipe was laid on Grove street to G. D. Barrett's new houses. Five hundred and forty-seven feet of six-inch pipe was laid on the Rochester road from the Home for the Aged to the residence of Joseph N. Stocker. A two-way hydrant was set at the end of this line to afford better fire protection to residents in the vicinity. Considerable ledge was found in the construction of this extension, which added somewhat to the estimated cost. One hundred and ninety-three and eight-twelfths feet of one-inch cement lined pipe was laid on Spruce street to the residence of Arthur H. King. The eight-inch gate at junction of Main and Portland streets was fitted with a new spindle and gland, the old ones being beyond repair. The hydrants have been regularly examined, and at the beginning of cold weather were pumped out and put in proper order for the winter season. Total number of hydrants now in use, 177.

There have been five leaks on distribution piping, date of repairing, cause of leak, size of pipe, and location as follows:

Date.	Size of Pipe in inches.	Location.	Cause.
March 10 . .	8	Cocheco street	Joint.
March 15 . .	16	Central Ave., opp. Pelree Mem. church .	Joint.
March 19 . .	6	Payne street, near Cocheco block . . .	Joint.
March 30 . .	16	Central avenue, near Chesnut street . .	Joint.
June 26 . . .	6	Sixth st., opposite G. E. Varney's house .	Joint.
July 24 . . .	6	Sixth street, near Geo. E. Varney's house	Joint.
Nov. 18 . . .	4	Sawyer Lower Mill	Joint.
Nov. 18 . . .	10	Central avenue, at Angle street	Joint.
Nov. 30 . . .	1	Nelson street, near J. T. W. Ham's residence. (Kelly Spring line.)	Pipe burst.

There have been twenty-four services put in during the year.

Used for that purpose 1,191 feet of pipe, 1,149 feet, 9 inches of 1 inch cement lined pipe, and 41 feet, 3 inches of 1 1-4 galvanized pipe.

Service pipe laid to date, 89,195 feet, 7 inches, or 16 miles, 4,715 feet, 7 inches. Number of services to date, 1837.

Repairs were made on twelve services, location, date and cause as follows :

Date.	Location.	Register No.	Nature of Repairs.
Feb. 18	Central Avenue . .	1,113	Service box filled
Feb. 2	Belknap Street . . .	930	Lead pipe burst
Feb. 8	St. Thomas Street .	966	Bad lead
Feb. 13	Sixth Street	1,248	Coupling split
Feb. 15	Portland Street . . .	363	Service box filled
Feb. 21	Central Avenue . .	1,118	Electrolysis
Mch. 13	Dover Street	532	Service box filled
Mch. 29	Central Avenue . . .	853	Lead burst
Mch. 29	Church	1,021	Lead burst
May 31	Prospect Street . . .	1,720	Leather packing defective
June 27	Sixth Street	580	Box filled up
Dec. 2	Baker Street	580	Leather packing defective

The following services have been discontinued :

Register No.	Owner.	Cause.
994	Margaret Gorman Est	Building removed
995	" " "	" "
427	Cochecho Mfg Co	" "
428	" " "	" "

Balance December 31, 1901	218 36
	<hr/>
	\$27,688 36

The following statement shows the amount of cash received at the office of the superintendent from January 1, 1889, to December 31, 1901:

Received in 1889	\$21,955 19
1890	29,215 34
1891	28,053 55
1892	27,691 65
1893	26,203 14
1894	29,048 05
1895	30,432 62
1896	26,599 87
1897	26,228 30
1898	28,797 67
1899	27,483 30
1900	26,673 97
1901	27,568 19
	<hr/>
	\$355,950 84
	<hr/>
Paid city treasurer in 1889	\$21,510 48
1890	29,420 00
1891	28,257 00
1892	27,640 00
1893	26,200 00
1894	29,100 00
1895	30,095 00
1896	26,450 00
1897	26,730 00
1898	28,750 00
1899	27,410 00
1900	26,700 00
1901	27,470 00
Balance December 31, 1901	\$218 36
	<hr/>
	\$355,950 84

The following is the amount of rainfall for the year as recorded at the pumping station :

January	0	inches
February	0	
March	6	
April	6.85	
May	7.3	
June	1.8	
July	6.1	
August	5.5	
September	3.05	
October	2.8	
November	1.05	
December	5.55	
	<hr/>	
	46.00	

The following table shows the rainfall for the past sixteen years :

1885	33.6	inches
1886	34	
1887	38.4	
1888	39.9	
1889	35.1	
1890	45.3	
1891	30.7	
1892	29	
1893	32.3	
1894	26.4	
1895	35.12	
1896	39.42	
1897	49.9	
1898	39.45	
1899	32	
1900	52.85	

CONCLUSION.

I wish to put on record my appreciation of the efficiency and fidelity of the office clerk, Mr. Charles K. Hartford. In concluding my report, I tender my thanks to the members of the commission for their never failing courtesy and support.

Respectfully submitted,

WILLARD T. SANBORN,
Superintendent.

Dover, N. H., December 31, 1901.

DOVER, N. H., January 6, 1902.

TO THE CITY COUNCILS OF THE CITY OF DOVER :

By vote of the School Committee of the city of Dover, I have the honor to communicate to you the annual report of said committee to the city, adopted January 6, 1902, as prescribed by section 12, chapter 92, of the public statutes of the State of New Hampshire, of which report the reports of the superintendent of schools, the committee on finance and claims, the music teacher and the truant officer, also herewith presented, were, by vote of the School Committee, made a part.

Respectfully submitted,

JAMES H. SOUTHWICK,

Secretary.

ANNUAL REPORT

OF

THE SCHOOL COMMITTEE

FOR THE YEAR 1901.

In accordance with the laws of the State of New Hampshire, the School Committee of the city of Dover presents its report for the year 1901, it being the thirty-second in the series of reports of the city district.

MEMBERS.

Truant Officer,

VALMORE H. CAVERLY.

Residence, Kirkland street.

Office, City building.

Office hours : 8 to 9 A. M., and 11.30 A. M. to 12 M., on school days.

GENERAL SURVEY.

The transactions of the School Committee during the year just ended, and the present condition of the public schools in this city, are so fully presented in the reports of the committee on finance and claims, and the superintendent of schools, that it seems unnecessary for the chairman of this committee to review the same.

Notwithstanding there has been an unusually large number of changes in our teaching force, the work in our schools has been carried on not less efficiently than in former years. We are confident that there has not been any lowering of standards maintained hitherto.

The committee has submitted to the demands of economy to a point beyond which it would be manifest folly to go. It is evident that a more liberal policy must soon be inaugurated or we shall be compelled to witness a retrograde movement as regards the efficiency and success of our public schools. A larger appropriation for text-books is needed. Wise economy in this direction would be secured by an annual expenditure sufficient to keep the books in use in a much better condition than they are, on the average, at the present time, as well as to enable the committee to keep nearer abreast of the times in the matter of new publications. It is better economy to keep up a fair average than to be compelled sometime to remedy the effects of prolonged neglect.

The failure to comply with the recommendations of the Committee presented in its last annual report, urging that at least two new rooms be provided for the grammar grades, has left the Committee to meet as best it could the problem of the overerowed condition of the seventh and eighth grades. Temporary relief has been effected in one of these grades, a school having been opened in Central hall for pu-

pils of the eighth grade. Additional room for grammar school pupils is greatly needed.

The importance of the evening school has been pressed upon our attention as never before, and all seem to be agreed that this department of public instruction must not be neglected.

We would reiterate Dover's great need of a new High school house. No doubt the leaven of this idea is working, and many of our citizens already believe that it would be opportune to move in this matter now. A splendid lot, centrally located and roomy, will be freely given to the city for this purpose as soon as it is desired for such a building. It would be the wiser course to take steps immediately for the erection of a building suitable for High school purposes, and which should include several rooms for pupils of the first grade below the High school.

Respectfully submitted,

GEORGE E. HALL,

Chairman.

Dover, N. H. December 31, 1901.

ANNUAL REPORT

OF THE

Committee on Finance and Claims.

TO THE SCHOOL COMMITTEE:

The committee on finance and claims makes the following report as to the receipts and expenditures of the board during the year 1901.

The resources of the Committee, apart from the special appropriation for evening school, text-books, and cleaning schoolhouses, were as follows:

REPORT OF AUDITORS.

We, the undersigned, have examined the books, papers, and accounts of W. K. Chadwick, treasurer of the School Committee, and find them correctly kept, rightly cast and vouched for, and that the sum of \$538.08 remains in the hands of the treasurer, which we find to be on deposit in the Strafford National bank.

We have also examined the receipted bills in the hands of the secretary, and find them to be properly cast, approved by the committee on finance and claims, receipted in full, and to correspond with the orders on the treasurer drawn therefor.

CLARENCE I. HURD,
CHAS. A. FAIRBANKS,

Auditors.

Dover, N. H., December 31, 1901.

ANNUAL REPORT

OF THE

SUPERINTENDENT OF SCHOOLS.

TO THE SCHOOL COMMITTEE OF THE SCHOOL DISTRICT OF
THE CITY OF DOVER:

Gentlemen: I have the honor to submit my fourth annual report upon the public schools of this city, it being the twenty-third in the series of annual reports of this department.

Statistics concerning enrollment of pupils, attendance, etc., are based on the school year, from August 1, 1900, to August 1, 1901; financial statistics are based on the fiscal year.

STATISTICS.

NUMBER OF PUPILS ENROLLED DURING THE YEAR ENDING
JUNE, 1901, EXCLUDING DUPLICATE ENROLLMENTS.

	Total.	Boys.	Girls.
High school	176	75	101
Grades 5—8	544	272	272
Grades 1—4	873	472	401

CHANGES IN TEACHERS.

High School.—Miss Hannah E. Rollins declined re-election last June, and Miss Aloysia M. Hoyer, a graduate of our High school and Smith college, was elected to succeed her. Miss Emily H. Ham, having resigned August 28, Miss Florence A. Gragg of Cambridge, Mass., was elected as her successor. About a week after the opening of the fall term, Miss Bertha Vogel, teacher of modern languages, accepted a similar position in one of the Boston High schools, and Miss Jessie F. Grieves of Somerville, Mass., succeeded her.

Grades.—Mr. George E. Foss of the Sawyer school, having been called to a more remunerative position in one of the schools of Springfield, Mass., Mr. Archer C. Bowen was transferred from the principalship of the Belknap to that of the Sawyer, and Mr. Frank E. Poland was elected principal of the Belknap. During the summer, after being unanimously re-elected in June, Miss Sarah L. Hallam, teacher of the seventh grade, Sawyer school, resigned. Miss Carrie S. Hanson of the sixth grade, Sawyer, was transferred to the seventh grade, Miss Helen M. Clark of the fifth was transferred to the sixth, and Miss Annie C. Brierley was elected teacher of the fifth grade. Miss Brierley is a

graduate of our High school and the New Hampshire State Normal school.

Mr. Bowen, having accepted a principalship in Melrose, Mass., Mr. Walter C. Bentley of Bridgewater, Mass., was chosen to succeed him.

A new class in the eighth grade was opened in Central hall, and Miss Annie L. Ricker of South Berwick, Me., was elected teacher.

Miss Miriam Davis of the fourth grade, Peirce, having resigned early in January, Miss Alta B. Maxwell of the fifth grade, Sherman, was transferred to the Peirce, and Miss Julia A. Grant from the Garrison Hill school to the Sherman.

Miss Carrie E. Hammond of the third grade, Sawyer, having declined to be a candidate for re-election, Miss Grace B. Henderson was elected to succeed her. At the regular meeting of the board in June, Miss Carrie B. Drew of the second grade, Sawyer, was granted a year's leave of absence, and Mrs. Mary W. Whiteley was elected to fill the vacancy.

Miss Cora A. Libbey of the Welch school, who had been on a year's leave of absence on account of continued ill health, resigned August 30, 1901, and Miss Emily S. Folsom who had been serving as temporary teacher in the Welch, was elected permanent teacher.

Ungraded Schools.—The vacancy in the Back River school caused by transferring Miss Henderson to the Garrison Hill, was filled January 31 by the election of Miss Annie S. Tuttle of Barrington. Miss Tuttle declined to be a candidate for re-election in June, and Miss Grace E. Hull was elected to succeed her.

Miss Henderson who had been teacher of the Garrison Hill school from the first of February until June, having been elected a teacher of the Sawyer school, Miss Eleanor F. Toolin, a graduate of the Dover High school and the Salem (Mass.) Normal school, was elected teacher of the Garrison Hill.

Special Teachers.—Miss Grace W. Livesey, having de-

cided to sever her connection with our schools as teacher of drawing, Mr. A. G. Randall was elected to this position in June. Mr. Randall declined the election, and Miss Sara K. Jackson of Andover, Mass., was elected.

THE HIGH SCHOOL.

The present High school building was built for District Two and was opened October 6, 1851. The entire cost of the building, including the land and furniture, was fifteen thousand dollars. Nearly fifty years ago the building committee said in its report: "Many gentlemen from abroad have uniformly pronounced it, in their judgment, to be among the best and most convenient schoolhouses in New England." But time has brought many changes during the last half century. This building is very inconvenient of access, deficient in arrangements, and of insufficient capacity. Six years ago, Supt. Folsom said in his annual report, "It would seem the part of wisdom to secure a lot while there is opportunity to make some choice in the matter. It would be better for the city to hold a desirable lot for five years unused than to find, when ready to build, that there is no suitable site available." I am authorized to state that the trustees of the Franklin academy fund have purchased the Hale lot, and are willing to present it to the city whenever it is ready to build a new High school building. It is an opportune time, it seems to me, to take action in this matter.

The September registration of the High school since 1884 has been:

	Boys.	Girls.	Total.	Per cent. Boys.
1884	58	91	149	39
1885	68	83	151	45
1886	59	73	132	44

Edward Carl Godfrey,	Alice Pierce Stevens,
Dennis Joseph Grady,	Edith Augusta Teeri,
Clara Comfort Hayes,	Mary Joan Tibbetts,
Ross Earl Jenkinson,	Frank Simon Torr,
Charles Lemuel Trickey.	

REPAIRS OF SCHOOLHOUSES.

A much needed plank walk has been built in the High school yard, two long reference shelves placed in the main room, and automatic valves added to the radiators. Had these valves been in use before, they would have prevented much damage. Room three has been replastered and some of the work benches in the laboratory have been remodelled to suit the needs of the work.

The ceilings and walls of the halls and of all the rooms in the Peirce have been calcimined, and much of the wood-work painted and varnished. I renew my recommendation of 1898 that modern heating and ventilating apparatus be placed in the Peirce. The furnaces now in use were condemned as inadequate and dangerous several years ago.

New stairs have been built in the Sherman, the stairways have been sheathed and a steel ceiling placed in room two. New stairs have been built in the Varney, the wood-work in the basements painted, a new floor laid in room two and in the halls, and adjustable furniture provided for one room.

New floors have been laid in the upper halls of the Belknap and in room five.

The Pine Hill has been supplied with hyloplate blackboards, the old wooden boards having been used for the new evening school.

The walls and ceilings of the Welch have been calcimined and the wood-work painted.

ENROLLMENT AND ATTENDANCE.

The average enrollment, as recorded in the school registers, is here given for twenty years, for purposes of comparison:

1881-82	1,525
1882-83	1,568
1883-84	1,149
1884-85	1,176
1885-86	1,211
1886-87	1,258
1887-88	1,268
1888-89	1,313
1889-90	1,301
1890-91	1,301
1891-92	1,192
1892-93	1,215
1893-94	1,252
1894-95	1,385
1895-96	1,306
1896-97	1,412
1897-98	1,468
1898-99	1,482
1899-1900	1,459
1900-1901	1,487

Average attendance in the public schools, as given in printed reports, for the thirty-one years since the formation of the City School District :

1870-71	1,270
1871-72	1,257
1872-73	1,231
1873-74	1,225
1874-75	1,191
1875-76*	
1876-77*	
1877-78*	
1878-79	1,028
1879-80	1,388
1880-81	1,436

*No report printed.

EVENING SCHOOLS.

The Belknap Vestry evening school began November 19, 1900, and continued fifty-two sessions, until February 19, 1901. Enrollment and attendance follow :

Total enrollment	43
Males	37
Females	6
Average attendance	17
Average absence	4
Average membership	21
Per cent. of attendance	81

In order to comply with the provisions of chapter 93, section 12, of the public statutes, by which certain minors, while employed, are required to attend an evening school, it was necessary to open another room. This school began in Cash's hall, November 25, with Mr. Frank E. Poland and Miss Mary E. Twombly as teachers. Miss Nellie F. Grant has since succeeded Mr. Poland.

The Belknap Vestry school was re-opened November 11, 1901. Mr. Robert J. Sisk and Miss Eleanor F. Toolin are the teachers. Both schools are now (January, 1902), in session. The record of enrollment and attendance in the Belknap Vestry school from November 11, 1901, to January 3, 1902, and in the Cash's Hall school from November 25, 1901, to January 3, 1902, follows :

	Belknap Vestry. Cash's Hall.	
Total enrollment	113	86
Males	72	77
Females	41	9
Average attendance	47	38
Average absence	10	36
Average membership	57	74
Per cent. of attendance	82	51

Employers have cordially co-operated with me in securing regular attendance on the part of their employes. Of the 199 pupils in both schools, 97 are compelled by law to attend an evening school, and 102 attend from choice. I

urgently recommend that this latter class, upon entering the school, be required to deposit from fifty cents to a dollar each, the same to be returned to them if their attendance and work prove satisfactory. Otherwise they forfeit it. For nearly four years I have watched those pupils who voluntarily belong to the evening schools, and I am convinced that they need something to improve their attendance. At least two teachers should be added to the present corps.

The following certificate of membership and attendance is sent to the employer every week :

EVENING SCHOOL DEPARTMENT.

DOVER, N. H.

1901-1902.

This is to certify that a minor employed in the room, No. . . mill, corporation, has registered in the evening school, in order to comply with the provisions of chapter 93, section 12, of the public statutes.

. Principal.

TO EMPLOYERS AND OVERSEERS:—If the person to whom this certificate is issued is in your employ under another name, please write the name known to you on the line below.

Name

. Overseer.

The attendance of the pupil named in this certificate is marked satisfactory or unsatisfactory upon the back of this card.

ADDITIONAL ROOM FOR HIGHER GRADES.

Last year I recommended to the Board that the Belknap schoolhouse be enlarged by adding two more rooms. After careful consideration by the committee on grammar schools Central hall was fitted up with modern furniture, twenty-five pupils of the eighth grade were transferred from the Belknap and the Sawyer, and the school was opened November 11, 1901. Miss Annie L. Ricker, of South Berwick, Maine, was elected teacher. The room is easy of access, large, light and pleasant.

During the last six years, there has been an increase in the membership of the sixth, seventh, and eighth grades of about 100 pupils. I recommend that another class in the seventh grade be opened either in Central hall or some other convenient room.

MANUAL TRAINING.

In my report of the work of 1899, I advised your Board to introduce manual training. I renew this recommendation. It seems to me that we cannot longer afford to leave this important subject out of our course of study.

THE TRUANT OFFICER.

This officer has performed his duties faithfully and efficiently. His careful supervision of truants has done much toward maintaining a high standard of attendance in our schools. His report will be found in Appendix N.

CONCLUSION.

In conclusion, I desire to express to school officers, teachers, and all others with whom I have had to do officially, my appreciation of their hearty cooperation and cordial support during the past year.

Respectfully submitted,

FRANK H. PEASE,

Superintendent of Schools.

Dover, N. H., December 31, 1901.

APPENDIX A.

PROGRAM FOR SPECIAL TEACHERS.

1901-1902.

MUSIC—ARTHUR E. FRENCH.

WEEKLY.

WEDNESDAY—A. M. Welch, 8.30 to 8.45; Hale, 9.00' to 10.10; Central hall, 10.20 to 10.50; Pine Hill, 11.00 to 11.30. P. M. Garrison Hill, 1.20 to 1.50; Varney, 2.20 to 3.45.

THURSDAY—A. M. Sawyer, (grades 1 to 4), 8.30 to 10.00; Peirce, 10.15 to 11.30. P. M. Belknap, 1.45 to 3.45.

FRIDAY—A. M. High, 8.45 to 9.30; Sherman, 9.45 to 11.30. P. M. Sawyer, (grades 5 to 8), 1.45 to 3.45.

DRAWING—SARA K. JACKSON.

WEEKLY.

TUESDAY—A. M. Sawyer (grades 5 to 8), 8.30 to 11.30. P. M. Sherman (two classes in grade 1, alternately; grades 5 to 7), 1.45 to 3.45.

WEDNESDAY—High, 8.30 A. M. to 1.00 P. M.

FRIDAY—A. M. Belknap, 8.30 to 11.30. P. M. Central Hall, 1.45 to 2.30; Pine Hill, 2.45 to 3.30.

BI-WEEKLY.

THURSDAY—A. M. Hale, 8.30 to 10.50; Welch, 11.05 to 11.30. P. M. Varney, 1.45 to 3.45, Sept. 12, 26; Oct. 10, 24; Nov. 7, 21; Dec. 5; Jan. 2, 16, 30; Feb. 13, 27; March 13, 27; April 24; May 8, 22; June 5.

THURSDAY—A. M. Peirce, 8.30 to 10.50; Garrison Hill, 11.15 to 12.00. P. M. Sawyer (grades 1 to 4), 1.45 to 3.45, Sept. 5, 19; Oct. 3, 17, 31; Nov. 14, 28; Dec. 12; Jan. 9, 23; Feb. 6, 20; March 6, 20; April 17; May 1, 15, 29; June 12.

APPENDIX B.

GUIDANCE OF JANITORS.

The following resolutions relating to janitors have been adopted by the committee on finance and claims :

Resolved, That the janitors are expected to spend all the time during school hours in or about the several buildings under their charge.

Resolved, That in making their circuit among the buildings, they should have regular hours at each building, of which the teachers should be advised.

In accordance with the above rules, the janitors have adopted the following schedule :

SOUTH SIDE.

GEORGE H. PATTERSON, Residence, 42 Atkinson street.
Varney, 8.00 to 8.30 A. M. ; 2.15 to 3.00 P. M.
Belknap, 8.45 to 9.15 A. M. ; 1.30 to 2.00 and at 3.15 P. M.
Hale, 9.30 to 10 A. M. ; 3.30 to 4.00 P. M.
Pine Hill, 11.30 to 11.45 A. M. ; and at 4.15 P. M.

NORTH SIDE.

MARTIN J. GALLIGAN, Residence, 26 Lincoln street.
Sawyer, 8.15 to 9.00 A. M. ; 2.00 to 2.30 P. M.
High, 9.05 to 9.25 A. M. ; and at 12.45 P. M.
Peirce, 9.35 to 10.00 A. M. ; 2.40 to 3.00 P. M.

DANIEL FORD, Residence, 8 Broadway.
Sherman, 8.00 and 10.15 A. M. ; 3.45 P. M.
Central Hall, 11.30 A. M. ; 4.45 P. M.

APPENDIX C.

NO-SCHOOL SIGNAL.

The following resolutions were adopted March 11, 1892:

Resolved—That the no-school signal, viz.: 2-2, 2-2, 2-2, 2-2, struck at 7.40 o'clock, A. M., shall be considered as a notification that no forenoon session will be held in any of the graded schools; when struck at 7.55, the signal shall apply to the grammar and primary schools only. The signal for no afternoon session shall be struck at 11.15 A. M., or 1.05 P. M.

Resolved—That the superintendent be hereby directed to instruct the teachers and pupils properly and thoroughly in regard to the foregoing resolution.

No-school signal given during the year 1901:

November 8—Forenoon.

March 11—Afternoon.

March 26—Afternoon.

APPENDIX D.

ROLL OF HONOR.

List of pupils not absent or tardy during the year ending June, 1901 :

HIGH SCHOOL.

Bessie M. Brackett, Helen M. Blaisdell, Angie Buzzell, Mary L. Clarke, Katherine DeMeritt, Bertha F. Foster, Gertrude E. Foye, Henry D. Freeman, Alma A. Harris, Bertha J. Harris, Ralph H. Hayes, Mary E. Jenness, Margaret L. Mills, Mary E. Moulton, Margretta Ramsey, Edith B. Sawyer, Charlotte N. Shepard, Bernice F. Spencer, Grace M. Stirling, Lillian C. Stirling, Grace C. Tripp.

SAWYER SCHOOL.

Grade VIII.—Arthur Foster, Carl F. Foye, Lizzie E. Hall, Susie M. Small, Ethel G. Smith.

Grade VII.—Robert M. Bradlee, Vera M. Crediford, Rose H. Crole, Alice W. Dearborn, Frederick G. Fernald, Morrill Hough, Hattie L. Nichols, Ralph A. Pryor, Walter S. Wallingford.

Grade VI.—Arthur W. Brown, Blanche E. Fernald, Ruby L. Foss, Addie E. Lord, Ernest L. Neal, Florence F. Remick, Roy E. Wiggin.

Grade V.—Ray M. Blaisdell.

Grade IV.—Cecil D. Colomy, Herbert A. Haworth, Humbert T. Iovine, Raymond H. Otis.

Grade III.—Olive T. Cate, Leland D. Stevens.

Grade II.—Amadao M. Iovine, Marguerite Stevens, Kenneth C. Sherman.

PEIRCE SCHOOL.

Grade IV.—Herbert E. Clark, Elmer R. Foss, Ozwin D. Hubbard, William Murphy.

Grade III.—Bessie Bradeen, Ralph H. Cole.

Grade II.—Katherine Ham, Roy H. B. Meserve, Annie L. Thompson.

SHERMAN SCHOOL.

Grade VII.—Maud S. Monroe, William H. Smith.

Grade VI.—Harold M. Foss, Frank P. Travers.

Grade V.—Florence V. Cole, Louis Leclerc, James B. Pettingill, Ruth M. Preston, Grace E. Travers.

VARNEY SCHOOL.

Grade IV.—Harold G. Stone, Grace J. Hill.

Grade III.—Grace F. Card, Marion E. Camavan, John D. Grady, Ida E. Leclerc, Walter R. Stackpole,

Grade II.—Mary H. Card, Annie Cole, Jared J. Mowry, Herbert H. Rodden.

Grade I.—Velma U. Davis, Stanley H. Frary.

BELKNAP SCHOOL.

Grade VIII.—Alice M. Brownell, Charles W. Cartland, Harold H. Kimball, Harold A. Rutter.

Grade VII.—Arthur H. Avery, Leland W. Fernald, Thomas E. Greenaway, Edith A. Haley, Alice E. Hutchins, Leah H. Hutchins, Floy E. McClintock, Sarah A. McConnell, Robert A. Neal, Lillian V. Spurling.

Grade VI.—Ruth F. Dearborn, Edward H. Hill, Ernestine C. Weeden.

Grade V.—Ellsworth N. Brackett, Arthur S. Ellis, Margaret J. Mathes, Earle R. Rutter, Winnifred W. Spurling, Carrie B. Stackpole, Manvel Whittemore.

HALE SCHOOL.

Grade IV.—Cecil H. Badger, George Fernald, Charles W. Jenkins, Delmore Spurling, Charles W. Stackpole, Frederick W. Taylor, Philip K. Whitehead, George Williamson.

Grade III.—Nellie F. Brown, Mary A. Cartland, Robert H. McNeil, Frank E. Palmer, James Williamson.

Grade II.—John Bennett, Charles S. Palmer, Charles A. Purinton, Mary A. Williamson

Grade I.—Harold Kanada, Katherine Sullivan.

PINE HILL.

Grade VI.—Rachael E. Jones, Margaret R. McNeil:

Grade V.—Harold Firth, William S. Greenaway, Mary A. Jones.

UNGRADED.

Garrison Hill—Ora B. Bolo.

Lower Neck—Florence M. Ford.

APPENDIX E.

ORGANIZATION OF THE SCHOOL COMMITTEE.

1902.

MEMBERS.

Annual meeting—The second Wednesday in January, at 11 o'clock, A. M.

Stated meetings—The second Thursday in each month, at half-past 7 o'clock, P. M.

ORGANIZATION FOR 1902.

Chairman,

GEORGE E. HALL,

80 Silver street.

Secretary,

JAMES H. SOUTHWICK,

665 Central avenue.

SUB-COMMITTEES.

Qualifications of teachers—Hall, (ex-officio), Welch, Tasker, Buzzell, Hurd, Murphy.

Finance and claims—Nealley, Buzzell, Foster, Southwick, Killoren.

Text-books—Southwick, Nealley, Fairbanks, McDuffee, Hall.

Music and drawing—Anthes, Foster, Shattuck, Southwick, Dyer.

Health—Dyer, Hurd, Welch, Killoren, Tasker.

High school—Hall, (ex-officio), Foster, Fairbanks, Welch, Killoren, Shattuck.

Grammar schools—(grades 5 to 8), Fairbanks, Buzzell, Nealley, Anthes, McDuffee.

Primary schools—(grades 1 to 4), Hurd, Tasker, Murphy, Anthes, Shattuck.

Ungraded schools—Buzzell, McDuffee, Murphy, Hurd, Nealley.

Evening schools—Welch, Foster, Southwick, Dyer, Tasker.

Truancy—Murphy, Shattuck, Anthes.

Private schools—Killoren, Tasker, Dyer.

Auditors—McDuffee, Fairbanks.

Superintendent of Schools,

FRANK H. PEASE.

Residence, 92 Locust street.

Office, City building.

Office hours: 8 to 8.30 A. M., 11.45 A. M. to 12.30 P. M., on school days; 7.30 to 8.30 P. M., Mondays and Fridays; 8 to 10 A. M., Saturdays.

Treasurer,

WILLIAM K. CHADWICK.

Residence, 269 Washington street.

Office, City building.

Office hours: 9 A. M. to 12 M., 2 to 4 P. M.

Truant Officer,

VALMORE H. CAVERLY.

Residence, Kirkland street.

Office, City building.

Office hours: 8 to 9 A. M., and 11.30 A. M. to 12 M., on school days.

APPENDIX F.

CALENDAR ADOPTED JUNE, 1901, FOR THE YEAR 1901-1902.

All schools open September 2, 1901, for 15 weeks to December 13, 1901.

Vacation two weeks.

All open December 30, 1901, thirteen weeks to March 28, 1902.

Vacation two weeks.

All open April 14, 1902. High, 10 weeks to June 20, 1902; other schools, 9 weeks to June 13, 1902.

APPENDIX J.

DOVER HIGH SCHOOL—COURSE OF STUDY,

JANUARY 1, 1902.

FIRST YEAR.

Latin—First Latin Book ; Gradatim ; Viri Romæ ; selections memorized.

English and History—Lockwood's Lessons ; composition and oral work ; study of American authors ; gems memorized ; current events, 15 minutes, twice each week.

Science—Physical geography ; botany.

Mathematics—Algebra.

SECOND YEAR.

Latin—Cæsar, books 1-4, or equivalent ; composition ; sight-reading ; selections memorized.

Greek—Beginner's Greek Book ; Xenophon begun.

French—Beginner's French Book ; French reader ; Mlle. de la Seigliere ; La Poudre aux Yeux ; sight-reading ; dictation ; selections memorized.

English and History—English literature, modern British authors, twice a week ; composition ; Mediæval history, three times a week.

Science—Astronomy ; zoology ; geology.

Mathematics—Plane geometry.

THIRD YEAR.

Latin—Ovid, 1000 lines ; scansion ; Cicero, seven orations ; composition ; sight-reading ; selections memorized.

Greek—Xenophon, books 1-4 ; composition ; sight-reading ; selections from Cyropædia.

French—Prose, poetry, and drama, 750 pages, grammar and composition ; conversation ; selections memorized.

German—Grammar ; German reader ; conversation ; selections memorized.

English and History—English literature, Chaucer to Milton, twice a week ; composition ; English history three times a week.

Science—Physics.

Mathematics—College requirements in algebra and geometry.

FOURTH YEAR.

Latin—Virgil, books 1-6 ; scansion ; sight-reading ; selections memorized ; Roman history.

Greek—Homer's Iliad, books 1-6, or Odyssey ; sight-reading ; scansion ; selections memorized ; selections from Plato's Apology ; composition ; Greek history.

French—Prose, poetry, and classic drama, 750 pages, (Moliere, Racine, and Corneille) ; grammar and composition ; conversation.

German—Standard classics ; composition and grammar ; conversation.

English and History—English literature ; Milton to Tennyson ; college entrance requirements ; Genung's Rhetoric.

Science—Chemistry.

Mathematics—Advanced algebra ; solid geometry ; plane trigonometry.

Electives—Commercial arithmetic, book-keeping, ancient history.

Drawing is required of all pupils during their first year ; of all second-year pupils except those taking Greek and Latin; of all third-year and fourth-year pupils preparing for scientific schools, art schools, or normal schools.

Music is required of all pupils once a week.

APPENDIX K.

TO EMPLOYERS OF CHILD LABOR:

Attention is invited to the following law enacted during the session of 1901.

CHANNING FOLSOM,
Superintendent of Public Instruction.

HOUSE BILL NO. 302.

An act to amend chapter 93 of the public statutes relating to scholars.

Be it enacted by the senate and house of representatives in general court convened :

Section 1. Chapter 93 of the public statutes is hereby amended by striking out sections 10, 11, 12, 13, 14, and 15, and inserting the following instead thereof :

Section 10. No child under the age of twelve years shall be employed in any manufacturing establishment. No child under the age of fourteen years shall be employed in any manufacturing establishment, nor in any mechanical, mercantile, or other employment, during the time in which the public schools are in session in the district in which he resides.

Section 11. No child under the age of sixteen years shall be employed in any manufacturing establishment, or in any mechanical, mercantile, or other employment during the time in which the public schools are in session in the district in which he resides, without first presenting a statement of his age from his parent or guardian sworn to before the superintendent of schools, or, if there is no superintendent of schools, by some person authorized by the school board of the district in which such child is employed.

And no child under the age of sixteen years shall be employed as aforesaid during the time in which the public schools are in session in the district in which he resides without first presenting a certificate from the superintendent of schools, or, if there is no superintendent of schools, some person authorized by the school board, that such child can read at sight and write legibly simple sentences in the English language. And any superintendent of schools or person authorized by the school board who certifies falsely as to matters prescribed by this section shall be fined not less than twenty nor more than fifty dollars for each offense.

Section 12. No minor shall be employed in any manufacturing establishment, or in any mechanical, mercantile, or other employment, who cannot read at sight and write legibly simple sentences in the English language, while a free public evening school is maintained in the district in which he resides, unless he is a regular attendant at such evening school or at a day school; *provided*, that upon presentation by such minor of a certificate signed by a regular practicing physician, and satisfactory to the superintendent of schools, or, where there is no superintendent of schools, the school board, showing that the physical condition of such minor would render such attendance in addition to daily labor prejudicial to his health, said superintendent of schools or school board shall issue a permit authorizing the employment of such minor for such period as said superintendent of schools or school board may determine. Said superintendent of schools or school board, or teachers acting under authority thereof, may excuse any absence from such evening school arising from justifiable cause. Any parent, guardian, or custodian who permits to be employed any minor under his control in violation of the provisions of this section shall forfeit not more than twenty dollars for the use of the evening schools of such town or city.

Section 13. If any owner, agent, superintendent, or overseer of a manufacturing, mechanical, or mercantile establishment, or any other person shall employ any child in violation

of the provisions of either of the three preceding sections, he shall be fined not exceeding fifty dollars for each offense, for the use of the district.

Section 14. Every person having the custody and control of a child between the ages of eight and fourteen years, residing in a school district in which a public school is annually taught, shall cause such child to attend the public school all the time such school is in session, unless the child shall be excused by the school board of the district because his physical or mental condition is such as to prevent his attendance at school for the period required, or because he was instructed in the English language in a private school approved by the school board for a number of weeks equal to that in which the public school was in session in the common English branches, or, having acquired those branches, in other more advanced studies. Any person who does not comply with the requirements of this section shall be fined ten dollars for the first offense and twenty dollars for every subsequent offense, for the use of the district.

Section 15. The state superintendent of public instruction shall have authority to enforce the laws relating to attendance at school and the employment of minors, and for this purpose, he and any deputy appointed by him shall be vested with the powers given by law to truant officers when authorized by school boards to enforce the laws relating to attendance at school and the employment of children. And the expenses necessarily incurred by the state superintendent in such enforcement shall be paid, as audited and allowed by the governor and council.

Section 2. This act shall take effect upon its passage.

Approved March 7, 1901.

APPENDIX L.

REPORT OF THE TEACHER OF DRAWING.

TO THE SUPERINTENDENT OF SCHOOLS:

In submitting to you this report, covering, as it does, only one term of work in drawing, it seems wise to make it a statement of our plan of work, and our hopes for the future, trusting that in time the results may speak for themselves.

The following subjects form a basis for the whole outline of work, which is carefully graded to meet the developing capacity of children.

I. Representation.—All materials can be used in the study of this subject,—pencil, ink, colored crayon, and water colors,—working from the simplest outlines of single objects, to groups showing a variety of “values,” and to drawing from life.

II. Construction.—This is a very practical subject, begun by paper folding and cutting, and gradually developed until a suitable preparation is gained for the course in mechanical drawing in the High school.

III. Designing.—All materials also come into use here. Begun by the repetition of the simplest lines and spots, it should be extended to a point of great beauty and usefulness. After learning the principles of design by the use of simple conventional spots, the pupil goes to nature for more beautiful motives, applying the principles already learned. Some time is also given to historic ornament.

IV. Picture Study.—The work in this subject has been hampered by the lack of pictures, but it is a subject in which the children seem much interested.

V. Composition.—Composition enters into all the other subjects, from the arrangement of the simplest group of still

life, and the placing of a spray of flowers upon a page, to the most complicated of designs and pictures.

HIGH SCHOOL.

It is my earnest wish that more time might be given to those pupils in the High school who elect drawing. As it is now, it is possible to give them but little attention, since two classes, one in free-hand drawing, and one in mechanical drawing, meet at the same time.

Our beginnings during this term seem small, but we hope that patience and perseverance will accomplish much.

Respectfully submitted,

SARA K. JACKSON.

Dover, N. H., December 30, 1901.

APPENDIX M.

ESTIMATES FOR 1902.

TO THE SCHOOL COMMITTEE:

The committee on finance and claims, having carefully considered the necessities of the schools for the year 1902, reports as follows:

GENERAL APPROPRIATION.

It is estimated that there will be needed for:

Fuel	\$1900.00	
Salaries	25,500 00	
Care of rooms	1,600 00	
Books, printing, stationery . .	300 00	
Miscellaneous	350 00	
Transportation	1,700 00	\$31,350 00

RESOURCES (ESTIMATED).

Literary fund from State treasury	\$850 00	
Tuition	700 00	
Dog licenses	875 00	
Surplus from 1901	497 62	\$2,922 62
Needed from city by appropriation		\$28,427 38

TEXT-BOOKS.

Estimated cost of text-books and supplies . .	\$2,000 00
---	------------

EVENING SCHOOL.

An appropriation for evening school of . . .	\$840 00
--	----------

CLEANING SCHOOLHOUSES.

An appropriation for cleaning schoolhouses of \$175 00

B. FRANK NEALLEY,

GEO. E. BUZZELL,

GEO. J. FOSTER,

J. H. SOUTHWICK,

ANDREW KILLOREN,

Committee on Finance and Claims.

Dover, N. H., January, 1902.

 APPROPRIATIONS FOR 1902.

TO BE EXPENDED BY THE SCHOOL COMMITTEE.

For school purposes as required by law . . .	\$25,314 00
In excess of required sum	2,936 00
Text-books and supplies	1,600 00
Evening schools	700 00
Cleaning schoolhouses	175 00

TO BE EXPENDED BY CITY COUNCILS.

Repairs of schoolhouses	\$1,500 00
-----------------------------------	------------

APPENDIX N.

TRUANT OFFICER'S REPORT.

TO THE SCHOOL COMMITTEE:

I respectfully submit the following report for the year 1901:

1. Number of complaints from teachers . .	938
2. Number of complaints from the superintendent	18
3. Number of complaints from the Sacred Heart parochial school	64
4. Number of complaints from St. Joseph parochial school	46
5. Number of complaints from St. Charles parochial school	66
6. Whole number of complaints received .	1,122
7. Number of cases of absence investigated	1,109
8. Number of cases of tardiness investigated	23
9. Number of children found absent without good reason	194
10. Number found to be truant	65
11. Number found at work illegally	6
12. Number of children not enrolled placed in school	7
13. Number of visits to schools	1,117
14. Number of visits to families	1,109
15. Number of visits to manufacturing establishments	36
16. Number of arrests	3
17. Number of children prosecuted	3

I have also the honor to submit herewith my report rel-

ative to the enumeration of children, assigned to me by vote of your board. The result of the enumeration is as follows:

Number of children between five and sixteen years of age:	
Boys	1,138
Girls	1,105
Total	<hr/> 2,243

Number between ten and sixteen years of age who cannot read and write English:

Boys	7
Girls	9
Total	<hr/> 16

Respectfully submitted,

V. H. CAVERLY,
Truant Officer.

Dover, N. H., December 31, 1901.

ANNUAL REPORT

OF THE

TEACHER OF MUSIC.

TO THE SCHOOL COMMITTEE :

Gentlemen :—With every new year the teacher should take up his labors with new enthusiasm, higher ideals, and improved methods. There should be some definite object, or objects in mind, which must be constantly kept in view, and for the attainment of which he must strive earnestly, persistently and thoughtfully.

Colonel Parker says :—

“Without emotions, man is nothing. The history of music is the history of the development of the emotions of the human race from the beginning. Music has, then, for its function, the cultivation of the spirit, or the higher development of the soul of man. . . . That faculty of the mind which has the dominant influence in deciding the motive and directing the will is emotion.”

Prof. Leonard B. Marshall writes :—

“The imagination is that grand faculty which enables us to form clear, distinct, mental pictures of things which are absent from our view. The cultivation of music tends to enlarge this function of the mind. ‘Distinct and sharply defined sense impressions are the first conditions of clear imagination and exact thinking.’”

In a broad sense we may say that we have striven to make the study of music in our schools thus helpful in the general development of the power to think and to feel. The work has been zealously prosecuted by the grade teachers, and the scholars have shown a commendable interest. In nearly all the classes, the work laid out at the

beginning of the year was satisfactorily performed ; a few classes even exceeding our expectations and accomplishing more than the required work. No doubt some allowance should be made for the difference among the various classes in average natural ability. But the writer doubts if as much difference naturally exists as is produced by accidental circumstances, partly, if not wholly preventable. This is an interesting subject for observation and study, and may profitably receive our careful attention.

As has been the custom in times past, a large chorus selected from the grammar schools took part in the Memorial day exercises at the city opera house. These exercises are always enjoyed by the pupils, and are useful in the cultivation of patriotic sentiments, as well as to stimulate to more enthusiastic endeavor in the regular class work. It involves the difficulty, however, of disturbing the regular routine of work, during the period of preparation, as we have hitherto been under the necessity of conducting it. To fit the children for these exercises, to do credit to themselves and to their teachers, and to be a source of pride to their parents, requires patient, painstaking preparation. As only about a dozen, on an average, can be selected from each room, because of lack of space on the stage, it will be seen that quite a serious inroad is made on the time belonging to the whole class in the interest of the few. This inconvenience,—really an injustice—may be remedied at small expense by supplying the classes with supplementary leaflets, where the materials to be used cannot be found in the books in general use.

On this occasion, as at the graduation of both the Grammar and High school classes, we were indebted to the owner, Mr. C. H. Fish, for the use of the tiered seats, thus enabling the singers to appear to a much greater advantage. Mr. Fish subsequently offered to turn the custody of these seats over to the city, so that they might be available for all such future needs of the schools, provided, only that the city would house and preserve them. It seems a cause for

regret that the city authorities could not have seen their way clear to accept this generous and public spirited offer.

The interest manifested by the scholars in the High school has been encouraging. New music in the form of "Codas" "Beacon" series, etc., is furnished from time to time, which aids materially in maintaining the interest.

In my report last year, I recommended the policy of excusing the monotones from music and requiring them to devote the time to some other subject. While there were doubtless good reasons at the time for delaying action, on the part of the committee, I believe that the time has now arrived when such a policy can be wisely adopted; confining it, however, to the monotones in the senior class.

To the grade teachers, to whom we must always look for the successful accomplishment of our plans; to the superintendent, for his sympathetic and painstaking co-operation; to the committee for their unfailing, helpful encouragement, I am indebted for whatever of success has come to my efforts; and all have my sincere thanks.

Respectfully submitted,

ARTHUR E. FRENCH.

Dover, N. H., December 31, 1901.

RESOLUTIONS ADOPTED BY THE SCHOOL COMMITTEE.

Resolved by this Committee that our hearty thanks are hereby extended to Prin. George E. Foss for the faithful and successful service rendered while principal of our grammar schools ; and that we sincerely congratulate Mr. Foss upon his marked promotion, though we regret losing him from our teaching force.

Adopted May 9, 1901.

WHEREAS, Miss Carrie E. Hammond has declined a re-election, after serving as teacher in our public schools fifteen years, the Committee hereby tender their sincere thanks for her long and faithful service, and express deep regret that she cannot serve longer as teacher, when she has been one of the most efficient and faithful of the corps of teachers during the past decade and a half.

Adopted June 13, 1901.

WHEREAS, Miss Sarah L. Hallam has resigned her position as a teacher in the public schools of this city, and her resignation has been reluctantly accepted,

Resolved: That we, members of the School Committee, express our high regard for one who has served long and well ; and whose record as a teacher in this city, during more than forty years, is one of rare fidelity and usefulness. We sincerely regret that she feels obliged to withdraw from our schools, and we extend to her our hearty good wishes that she may long enjoy the recollection of her noble service.

Adopted August 12, 1901.

WHEREAS, this Committee has reluctantly accepted the resignation of Miss Emily H. Ham, who has taught in our High school during the last eight years,

Resolved: That we express the high esteem in which she is held by us, and our appreciation of her fidelity and excellent service; and that we extend to her our best wishes as she enters a larger sphere of service for which she is so well fitted.

Adopted September 2, 1901.

MUNICIPAL ELECTION.

NOVEMBER 26, 1901.

On Thursday evening, December 5, 1901, both branches of the city government met in joint convention for the purpose of canvassing the vote given in for mayor and superintendent of streets at the municipal election in November.

The following communication was submitted by the city clerk:

Dover, N. H., December 5, 1901.

TO HIS HONOR, THE MAYOR, AND THE CITY COUNCILS OF
THE CITY OF DOVER:

Gentlemen :—Under and by virtue of the provisions of section 2, chapter 47, public statutes of the State of New Hampshire, I have the honor to submit for your inspection, the returns of the votes given in for mayor and for superintendent of streets, at the municipal election holden on the 26th day of November, A. D., 1901.

For more convenient reference and computation, I have attached hereto a tabulated statement of the vote by wards.

Respectfully submitted,

FRED E. QUIMBY,

City Clerk.

FOR MAYOR.

	Arthur G. Whittimore.	Percival B. Downing.	Chas. T. Henderson.	John J. Jewell.	Ezra C. Goodwin.	John R. Worster.
Ward 1	355	13	1	1	1	3
Ward 2	538	24				
Ward 3	388	18				
Ward 4	592	19				
Ward 5	59	10	1	1	1	3
	1,932	84				

FOR SUPERINTENDENT OF STREETS.

	John R. Worster.	Isaac L. Lucas.	Elijah G. Roberts.	Wm. Penn Tuttle.
Ward 1	302	81	1	1
Ward 2	516	93		
Ward 3	86	366		
Ward 4	138	480		
Ward 5	140	103	1	1
	1,182	1,123		

The following resolution was unanimously adopted :

RESOLVED BY THE CITY COUNCILS OF THE CITY OF DOVER,
IN CONVENTION ASSEMBLED :

That Arthur G. Whittemore, having received the largest number of votes given in at the municipal election, holden on the twenty-sixth day of November, A. D., 1901, for mayor, is hereby declared to have been duly elected to that office for the ensuing year.

The following petition was read :

TO HIS HONOR, THE MAYOR, AND THE HONORABLE, THE
CITY COUNCILS OF THE CITY OF DOVER :

Respectfully represents Isaac L. Lucas, of said Dover, that he was a candidate for superintendent of streets at the last municipal election (November 26, 1901) for that office for the year 1902, and not being satisfied with the manner and result of the count of votes for that office, respectfully prays your honorable body for a recount of the votes cast at such election for the office of superintendent of streets.

Dated this 29th day of November, 1901.

ISAAC L. LUCAS.

Upon the foregoing petition, the following order was passed :

RESOLVED BY THE CITY COUNCILS OF THE CITY OF DOVER,
IN CONVENTION ASSEMBLED :

First--That a special committee consisting of five members be appointed, for and in behalf of these councils, to examine, sort and count the votes given in at the last municipal election, holden on the 26th day of November, A. D., 1901, for superintendent of streets, and report their findings to these councils at an adjournment of this meeting, to be holden on Tuesday evening, December 10, A. D., 1901, at 7.30 o'clock; and the city clerk is hereby directed to hold the ballots cast at said election, now in his custody, subject to the order of said committee.

Second—That the several candidates for said office shall be duly notified of the time and place appointed by said committee for the recounting of said votes, to the end that they may be present, with counsel, if desired, at said meeting, and at any and all adjournments thereof.

Aldermen Wiggin and Cartland, and Councilmen Cheney, Tuttle and Townsend were appointed.

At an adjourned meeting holden December 10, 1901, the following report was presented, and the attached resolution unanimously adopted :

TO THE CITY COUNCILS OF THE CITY OF DOVER :

Gentlemen :—Your committee appointed to examine, sort and count the votes given in at the municipal election, holden on the 26th day of November, 1901, for superintendent of streets, beg leave to report that they have attended to the duty assigned them, and while a trifling variation appeared in the vote as returned, and as our interpretation rendered it, the difference is so slight as to in no manner affect the situation, and we respectfully recommend the passage of the annexed resolution.

Respectfully submitted,

ORLANDO R. WIGGIN,
LEWIS E. TUTTLE,
CHARLES W. TOWNSEND,
A. A. CHENEY,
CHAS. S. CARTLAND,

Committee.

RESOLVED BY THE CITY COUNCILS OF THE CITY OF
DOVER, IN CONVENTION ASSEMBLED :

That John R. Worster, having received the largest number of votes given in at the municipal election, holden on the 26th day of November, A. D., 1901, for superintendent of streets, is hereby declared to have been duly elected to that office for the ensuing year.
